

**Take your online presence to the next level**

## Our History

Boostflow was founded in 2018 by entrepreneurs Billy Mole and D'Andre Smith in their hometown of Yarmouth, Nova Scotia. From the beginning, our goal has always been to create long-lasting connections between businesses and their customers. Since our founding, we've worked with clients in varying industries on projects ranging from hands-off, evergreen websites to e-commerce platforms that serve users worldwide.

Our team is passionate about identifying opportunities and solutions for our clients that make a real impact on how they do business. Learn more about the team behind Boostflow and what drives us.

## Partnerships & Affiliations

Boostflow is a recognized partner agency at the highest level available on the Wix platform. Our clients receive priority support and peace of mind knowing their website will remain online and secure at all times. We've also formed partnerships with Digital Nova Scotia, Western Regional Enterprise Network and The Yarmouth & Area Chamber of Commerce, making a direct impact on the business community across the province and beyond.

# Meet the Team

---

# D'Andre Smith

CO-FOUNDER / OPERATIONS & PRODUCT DEVELOPMENT

D'Andre is a co-founder of Boostflow, where he oversees operations, product development and the strategic direction of the company.

Setting out in 2018 to change the way people shop locally, he prides himself on the projects that have impacted rural business communities the most. D'Andre has helped the company expand its feature offering which has enabled thousands of customers to shop from their favourite local restaurants and retailers online.

Guiding the company forward in user design and experience, D'Andre finds ways to advance the design philosophy of our products and service offerings to better serve our customers and their users.

---

# Billy Mole

CO-FOUNDER / BUSINESS DEVELOPMENT & MARKETING

Billy is a co-founder of Boostflow and drives the company forward in business development, sales and marketing.

Previously, he spent close to five years in a marketing management position with one of Canada's largest automotive groups. Upon growing his marketing department to a successful business development centre, Billy wanted to use his skills to bring similar change to struggling businesses. In 2018, he founded Boostflow with business partner D'Andre Smith.

With his years of sales and marketing experience, Billy has helped Boostflow foster long-running relationships with clients and partners across Canada and beyond.

MEET THE TEAM

# Team Roster

D’Andre Smith	CO-FOUNDER	D'Andre is an e-commerce specialist and excels at tying revenue goals and user experience through innovate platforms
Billy Mole	CO-FOUNDER	Billy is a web developer and advertising specialist and works hard to ensure our clients are staying ahead of the curve
Charlene Dela Cruz	PHOTOGRAPHER	Charlene brings over 10 years of commercial experience in brand photography and products shots
Justin Porter	GRAPHIC DESIGNER	Justin specializes in brand identity and logo design

# Website Hosting Options

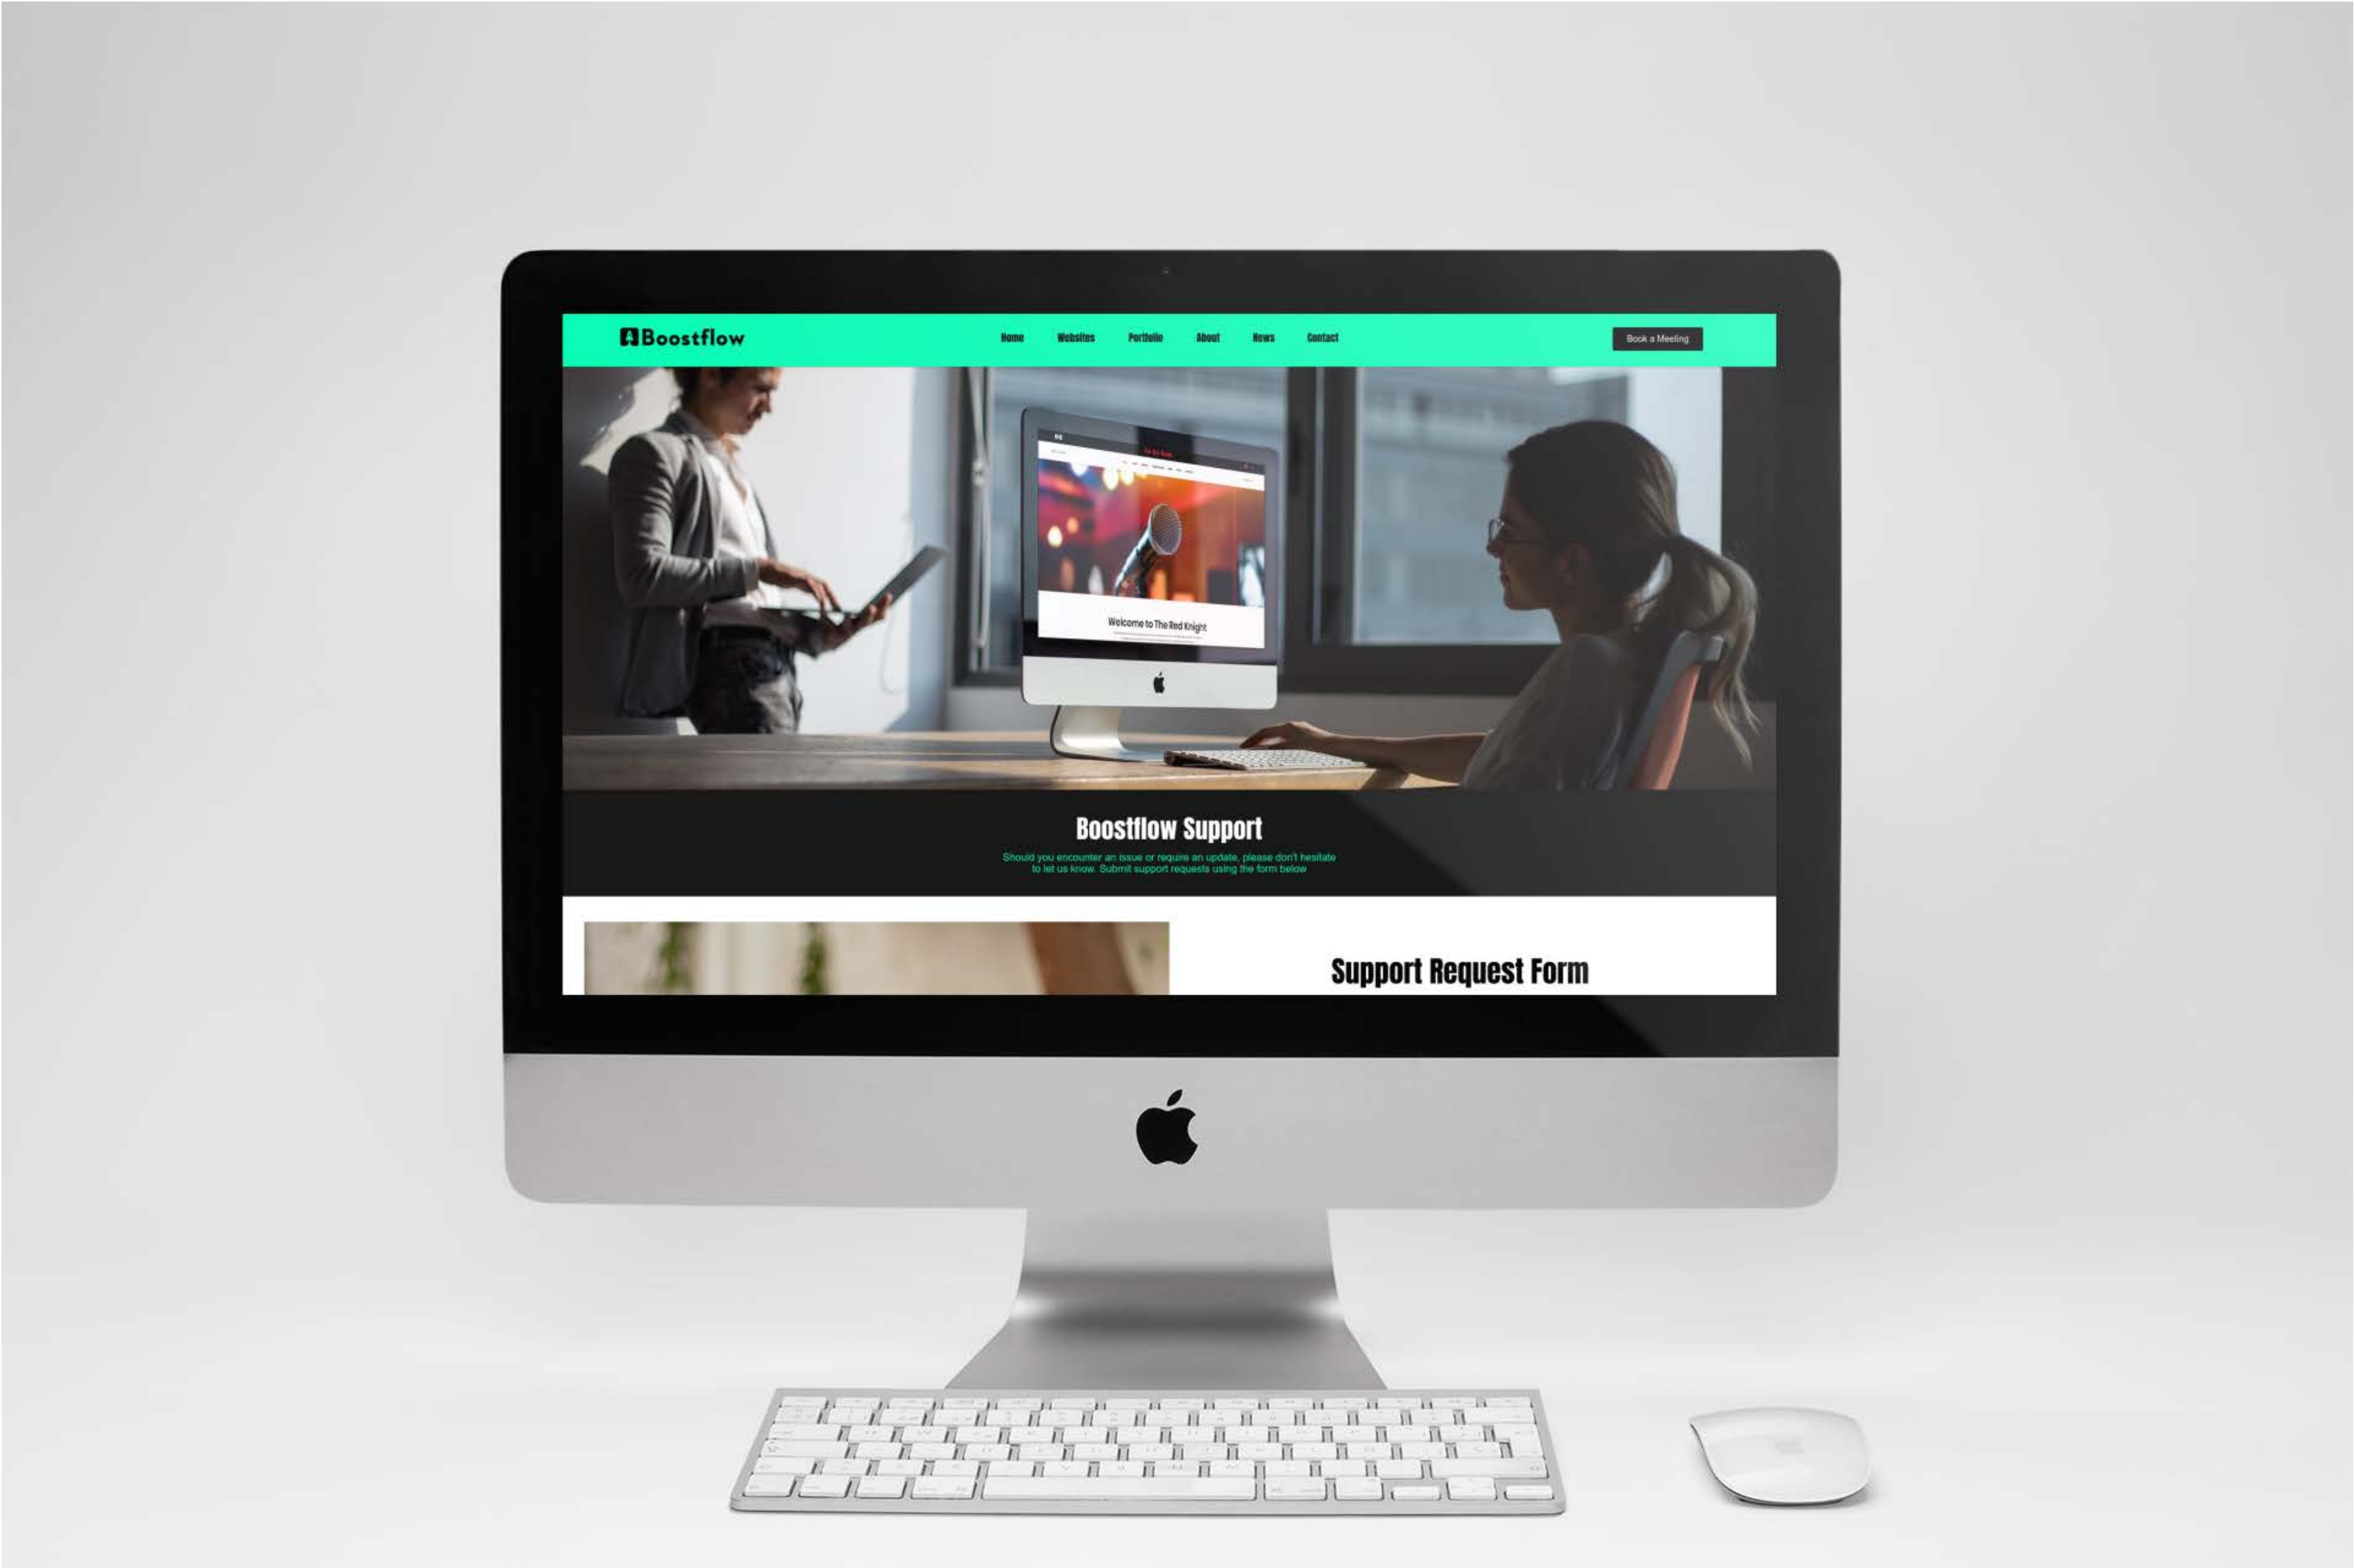

# Full-Service Hosting

Full-Service hosting is for clients that want a hands-off experience and consolidated billing. We'll manage all of the accounts and charges associated with your website on your behalf, as well as provide monthly analytical reports and ongoing support. This option also includes one branded professional email account.

**INCLUDES**

- ✓ Consolidated Billing for Website Fees
- ✓ Monthly Analytic Reports
- ✓ Ongoing Updates & Revisions
- ✓ Bug Fixes & Error Corrections
- ✓ Professional Branded Email Account
- ✓ Quarterly Performance Reviews

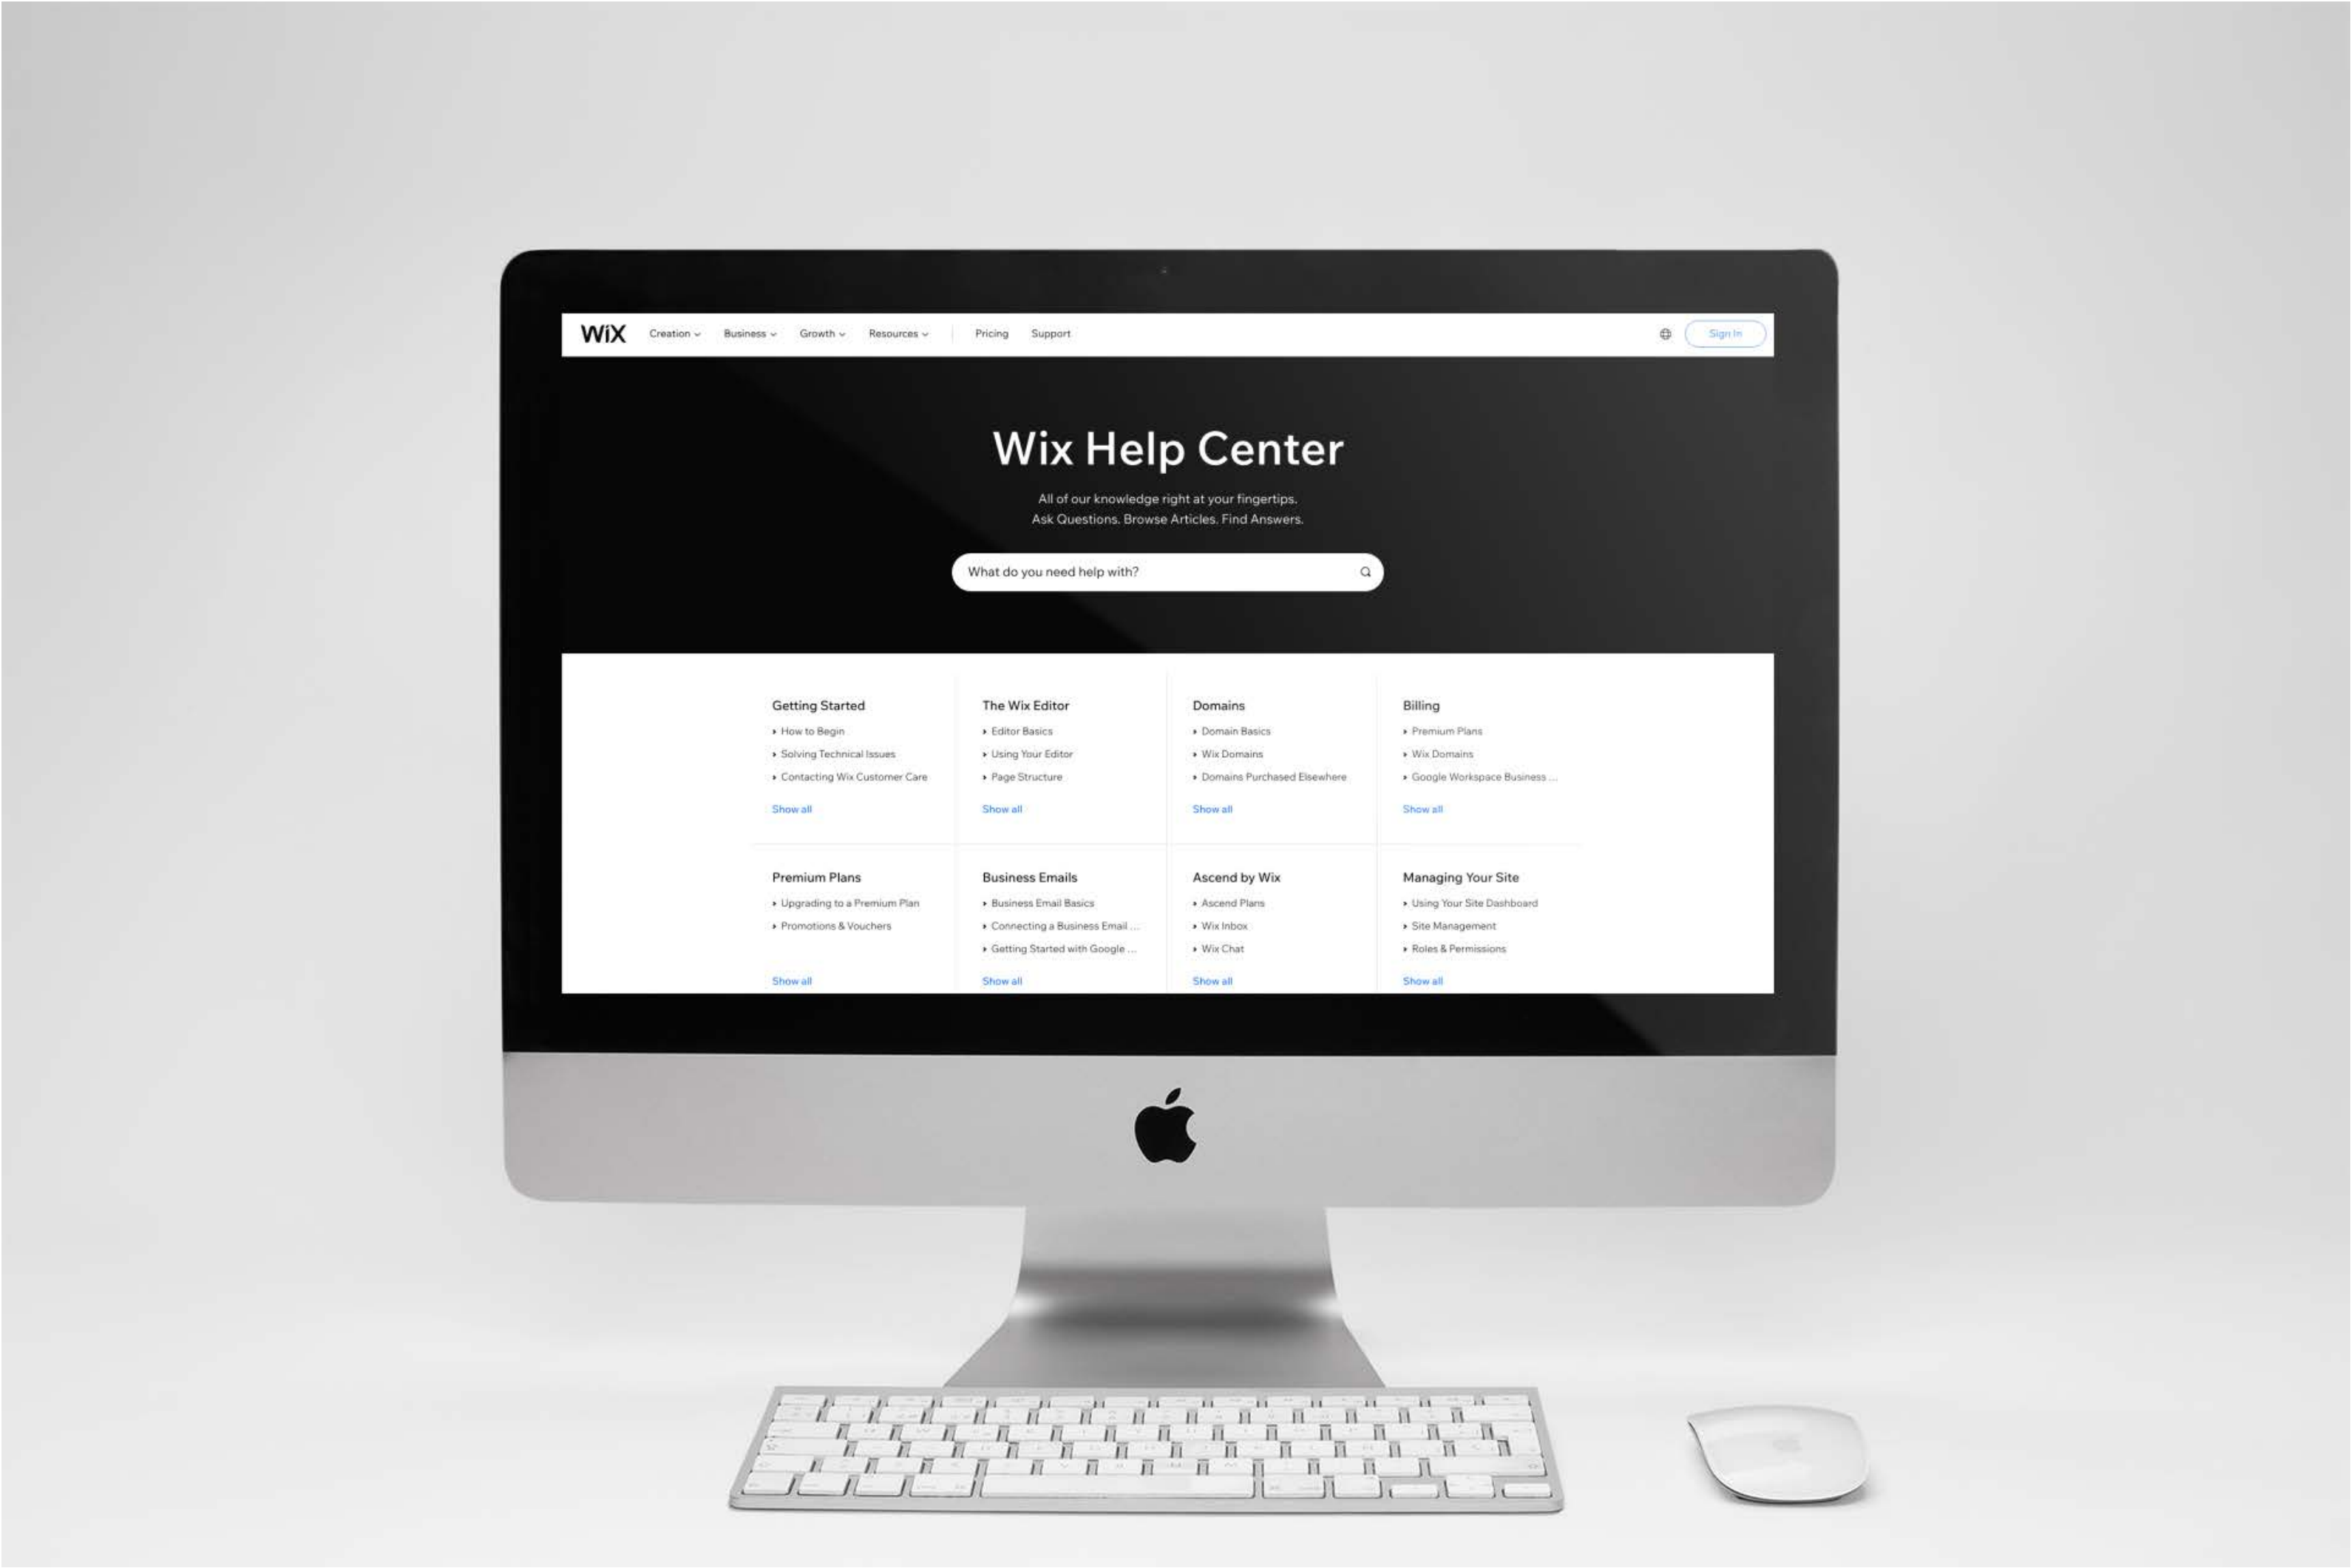

# Self-Service Hosting

Self-Service hosting makes sense for clients with evergreen websites who do not require frequent updates or need ongoing support. With this option, you'll be responsible for future content updates and maintenance of the website, as well as any associated billing. Should you choose Self-Service hosting, we offer post-launch support at an hourly rate of \$100/hour.

## INCLUDES

- ✓ Direct Billing for Website Domain, Email & Hosting
- ✓ Full Ability to Update Website Content
- ✓ Responsibility for Ongoing Website Integrity
- ✓ Support Available at \$100/hour

# Website Advertising

## Boost Website Traffic

Your website has the ability to convert web traffic into leads, appointments or sales. The more traffic that arrives on your site, the higher the likelihood of making conversions. It's crucial to have a plan to drive consistent traffic to maintain a successful online presence.

We offer both paid social advertising and retargeting services to clients to drive quality traffic to their websites on an ongoing basis. Learn more about our services below or book a free consultation to get started.

## Social Advertising

We'll advertise your website on Facebook and Instagram by creating a new ad account and connecting it to your existing channels. We then create, manage and execute paid advertising campaigns that market your business to anyone inside parameters we set.

These ads won't appear on your Facebook or Instagram page feed as posts in the typical sense. Instead, these ads run consistently throughout the month in locations including the news feed, Facebook Marketplace, partner websites and more. Social media marketing allows you to market your business to both existing customers and whole new segments that are currently untapped.

**Starting at \$1,000/Month**

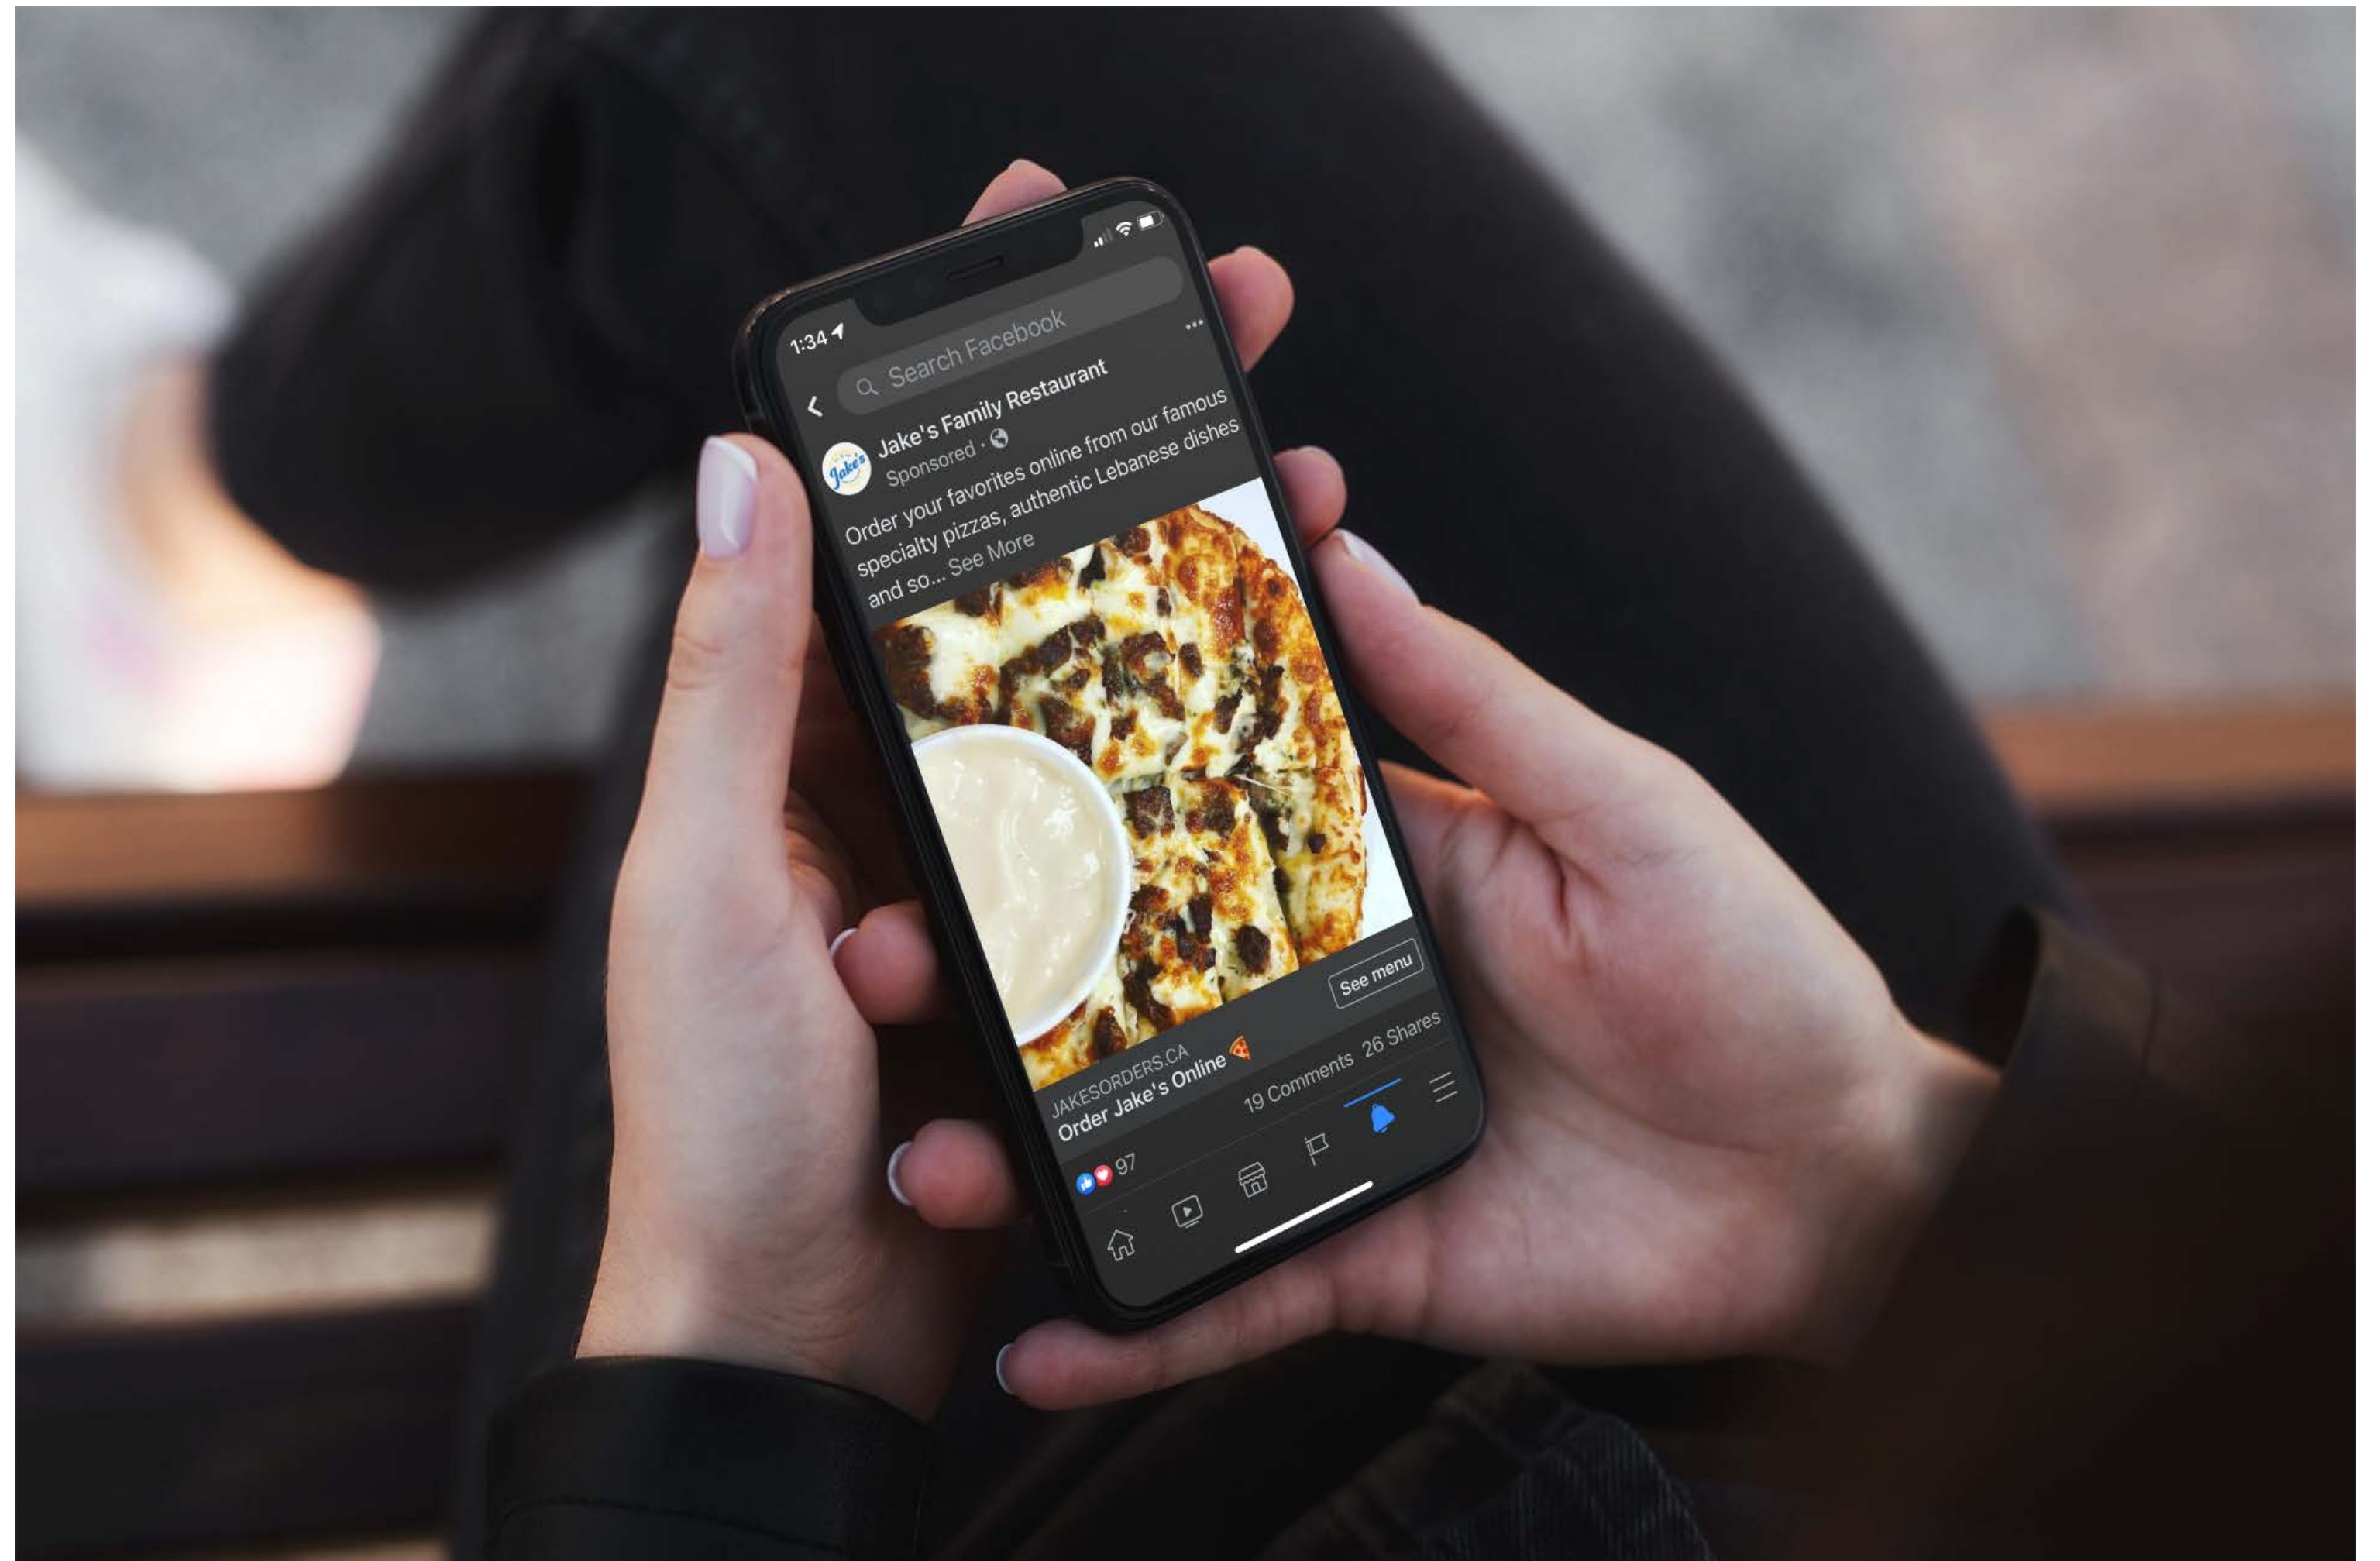

## Retargeting Ads

Our retargeting service shows targeted ads to users who have already visited your website. Whether you're looking to grow brand awareness, increase sales, or drive any other type of conversion, retargeting ads' high click-through rates speak for themselves.

Through a tracking code, retargeting ads will follow users across Facebook and Instagram and entice them to return to your website. Every time your online window shoppers see your ad, they begin to recognize your brand and your products, making them more likely to return and convert. Through utilizing retargeting ads, your business stays at the forefront of past visitors' minds.

**Starting at \$1,000/Month**

# Our Services and Capabilities

# Our Services and Capabilities

We create beautiful, intuitive platforms that help organizations serve their customers more efficiently. We rocket businesses through search engine rankings, provide powerful e-commerce solutions and develop high-ROI digital advertising campaigns that generate results.

# Testimonials

“

**Words can't express how happy I am with our website design and new e-commerce store. They have given us the opportunity to grow our business in new ways and to promote our services and products to people far and wide!**

---

**Krista Smith**

**PRESIDENT & FOUNDER  
THE STYLE MERCHANT SALON & BOUTIQUE**

“

**I can't thank Boostflow enough for all their help! They were extremely knowledgeable and accomplished everything we were looking for in an e-commerce website.**

**We highly recommend working with the team at Boostflow**

---

**Gabrielle Hurlburt**

GENERAL MANAGER  
HERITAGE BREWING CO.

“

**Our company recently worked with Boostflow on creating a new website. We received prompt and helpful support throughout the entire process, and are very pleased with the results! Since launching the new website, we have received a lot of positive feedback**

# Case Studies

# The Style Merchant

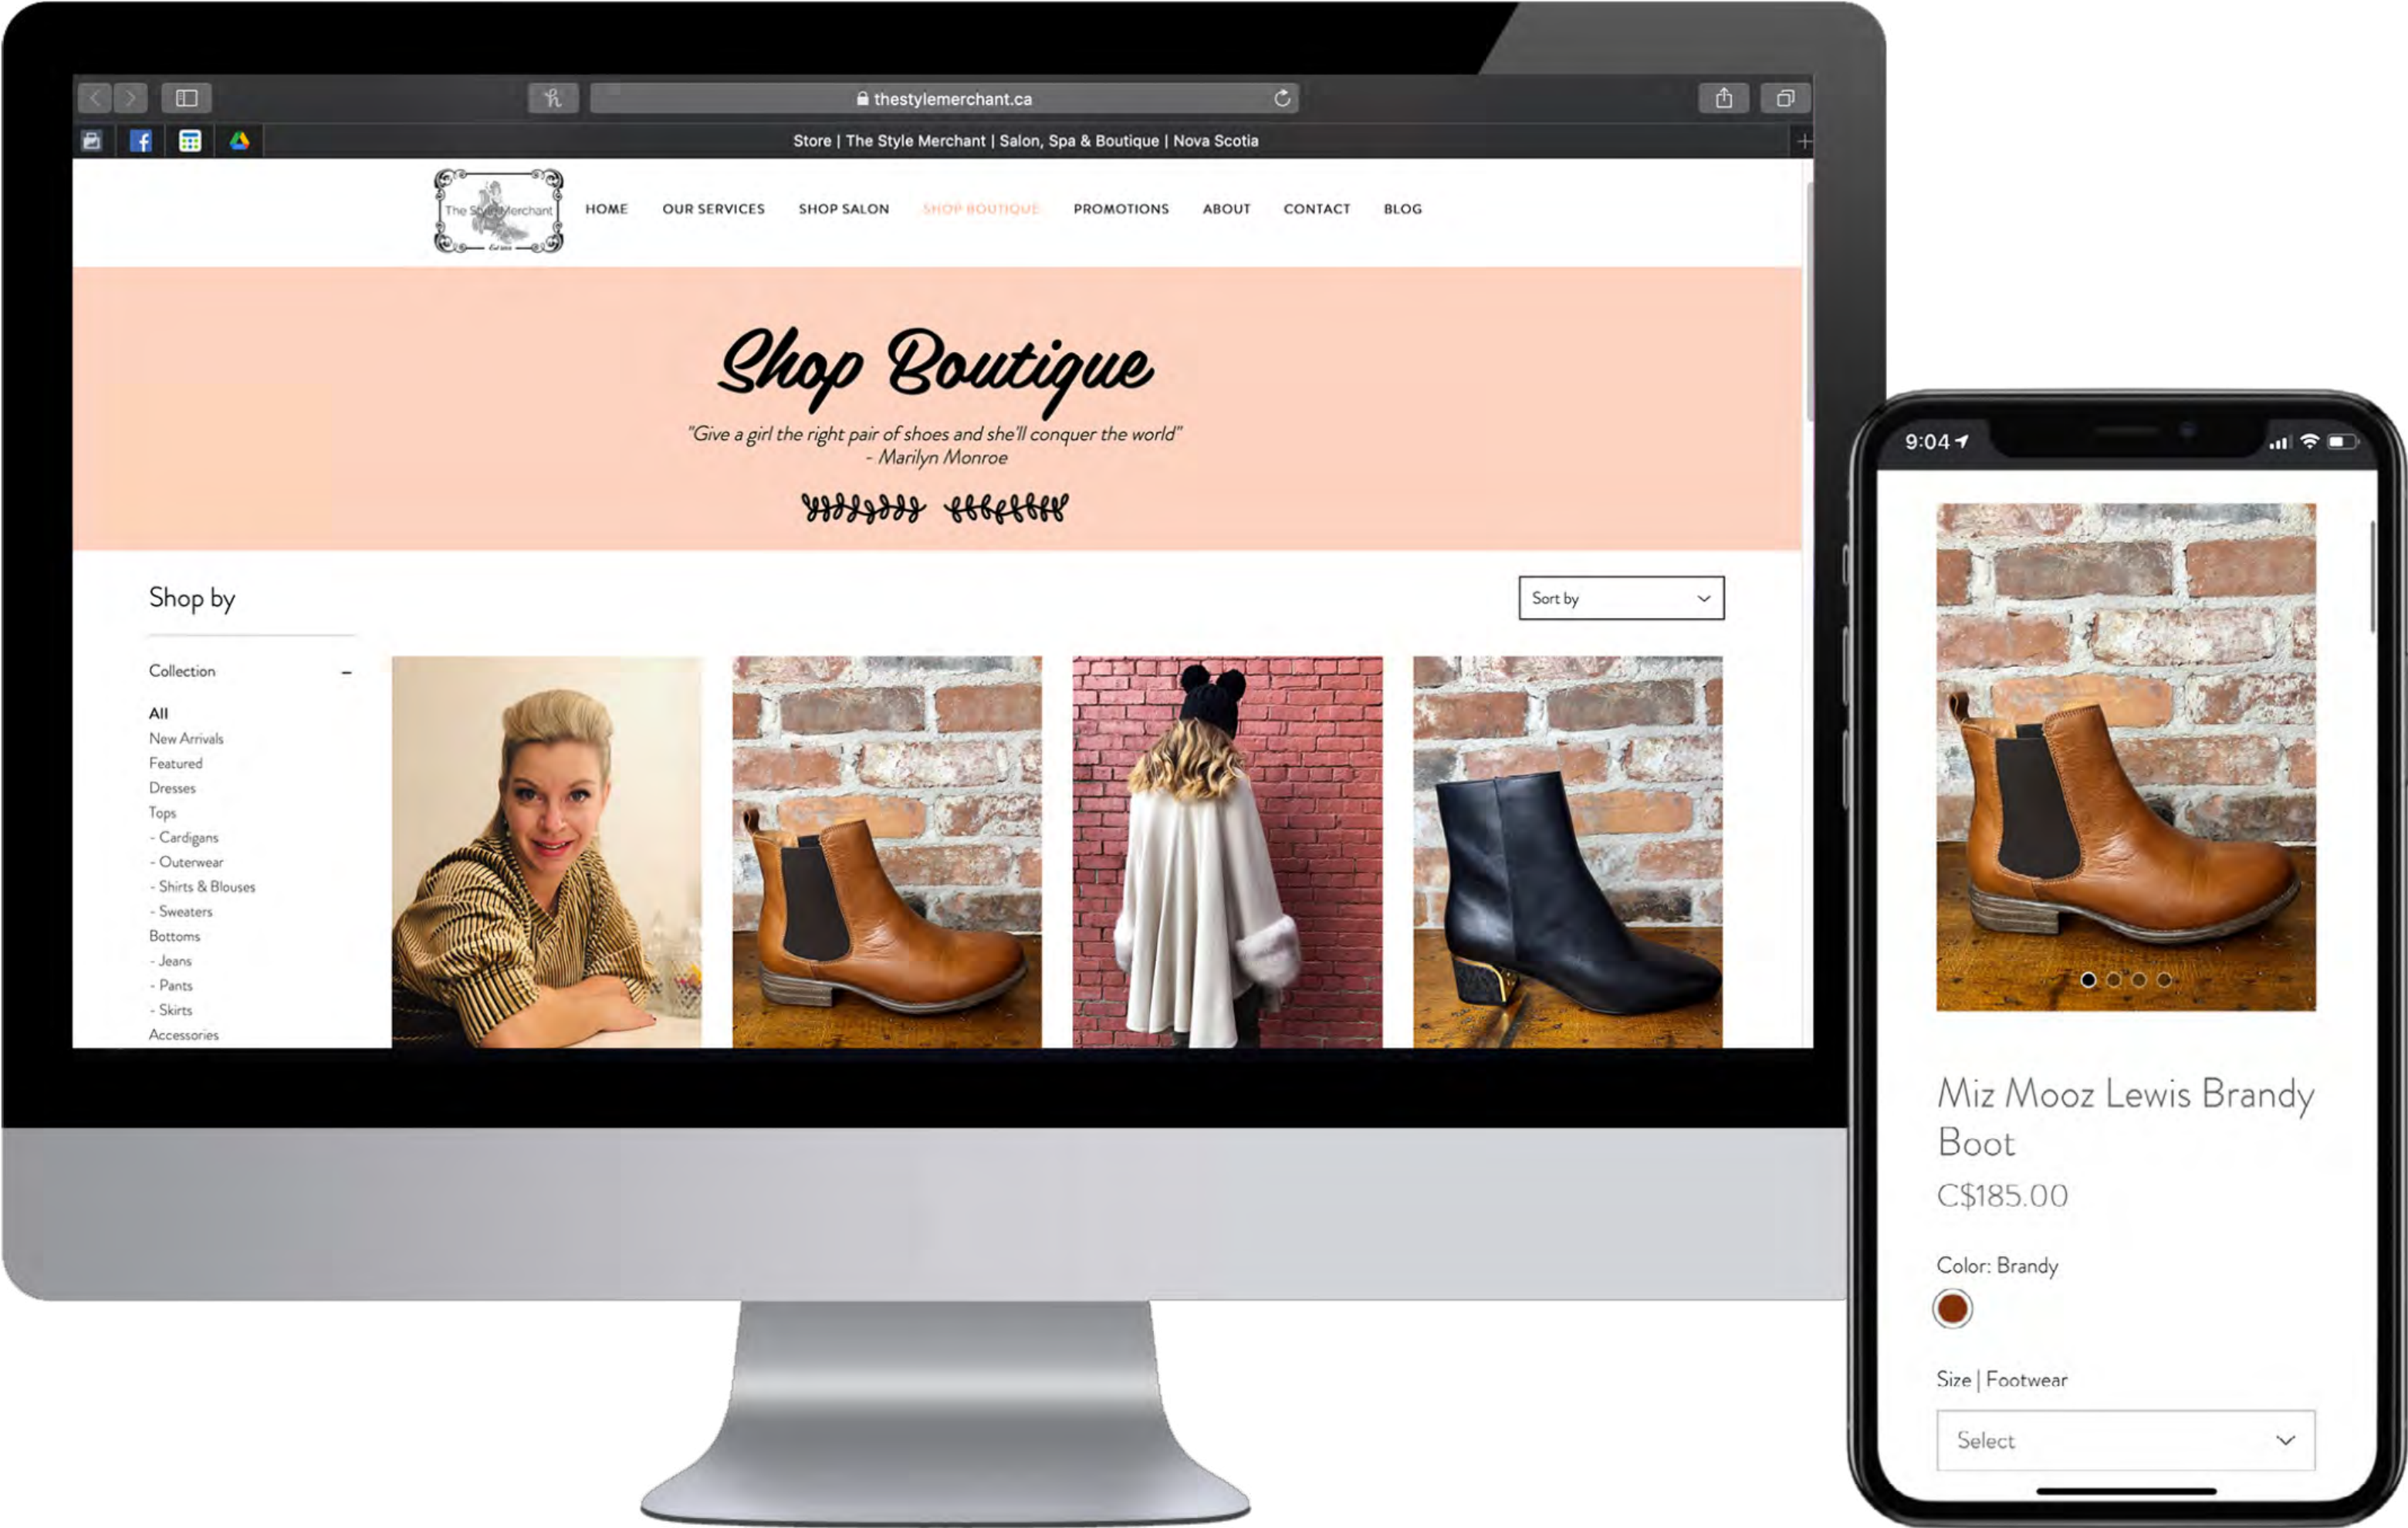

**CLIENT**  
The Style Merchant Boutique & Salon

**CHALLENGE**  
The team spent nearly 3 months in 2019 preparing to launch over 300 boutique products on their P.O.S provider’s platform.

Unsatisfied with the design and lack of professionalism, they approached us to take over the project & create a new e-commerce website.

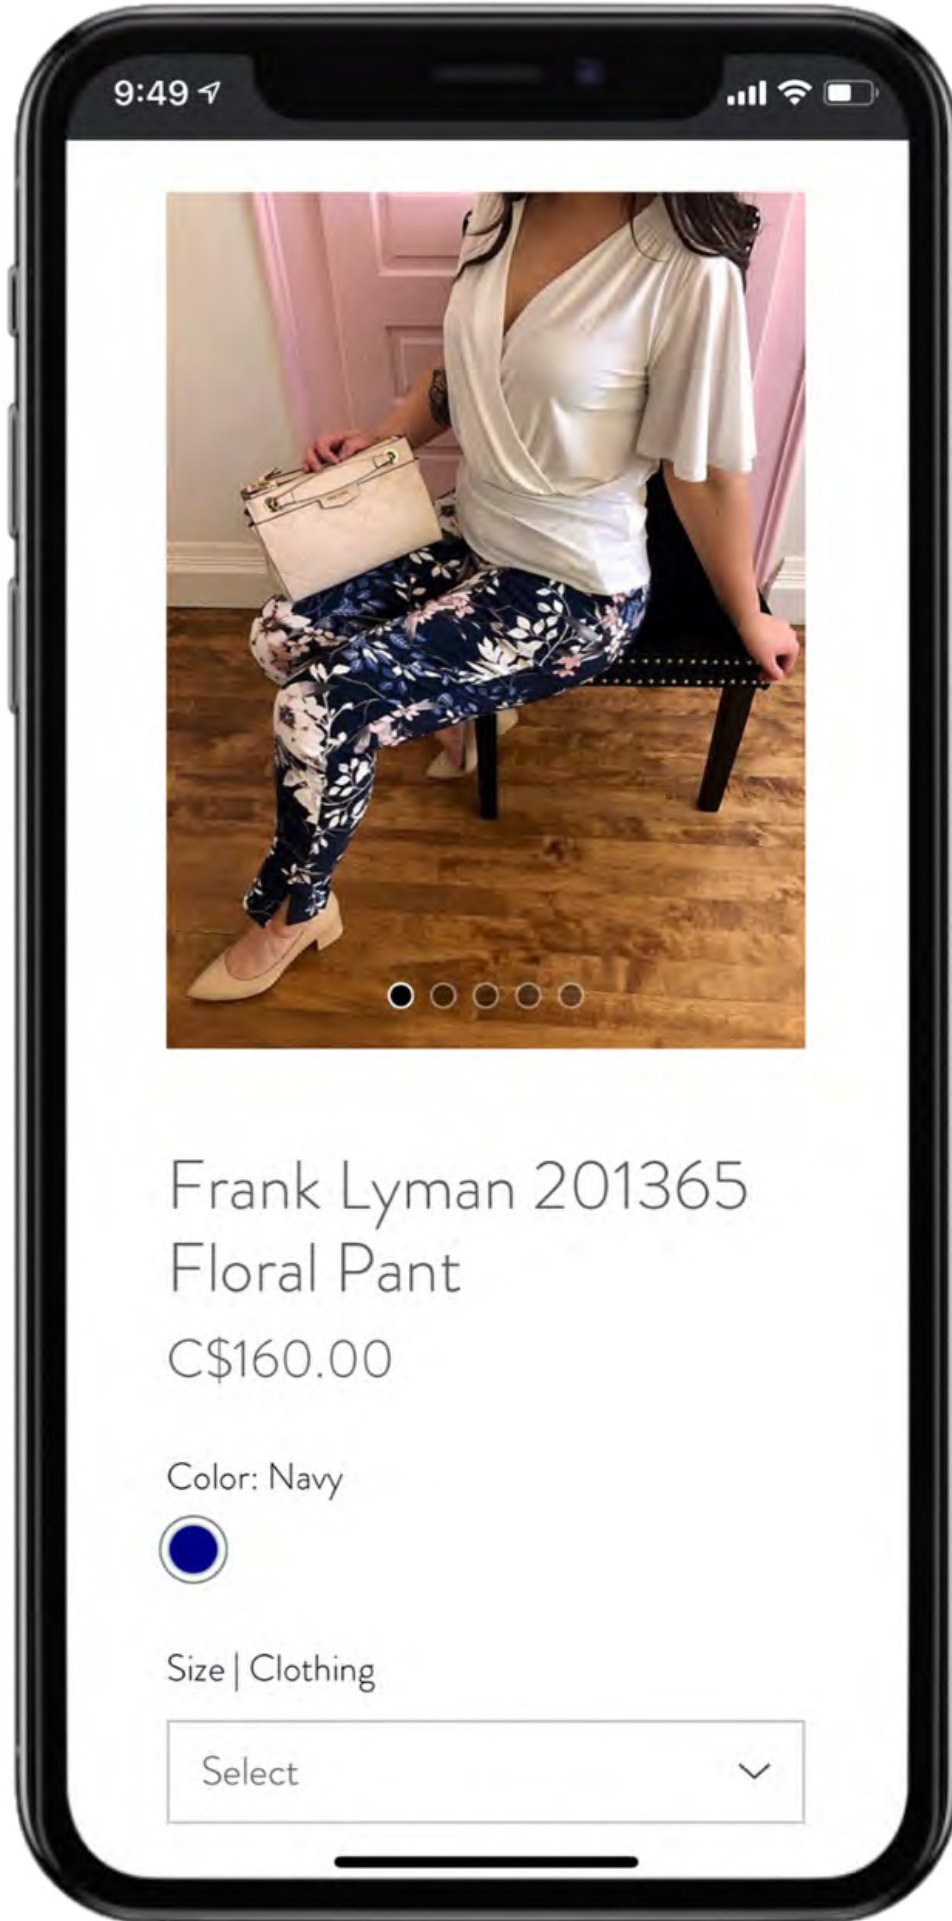

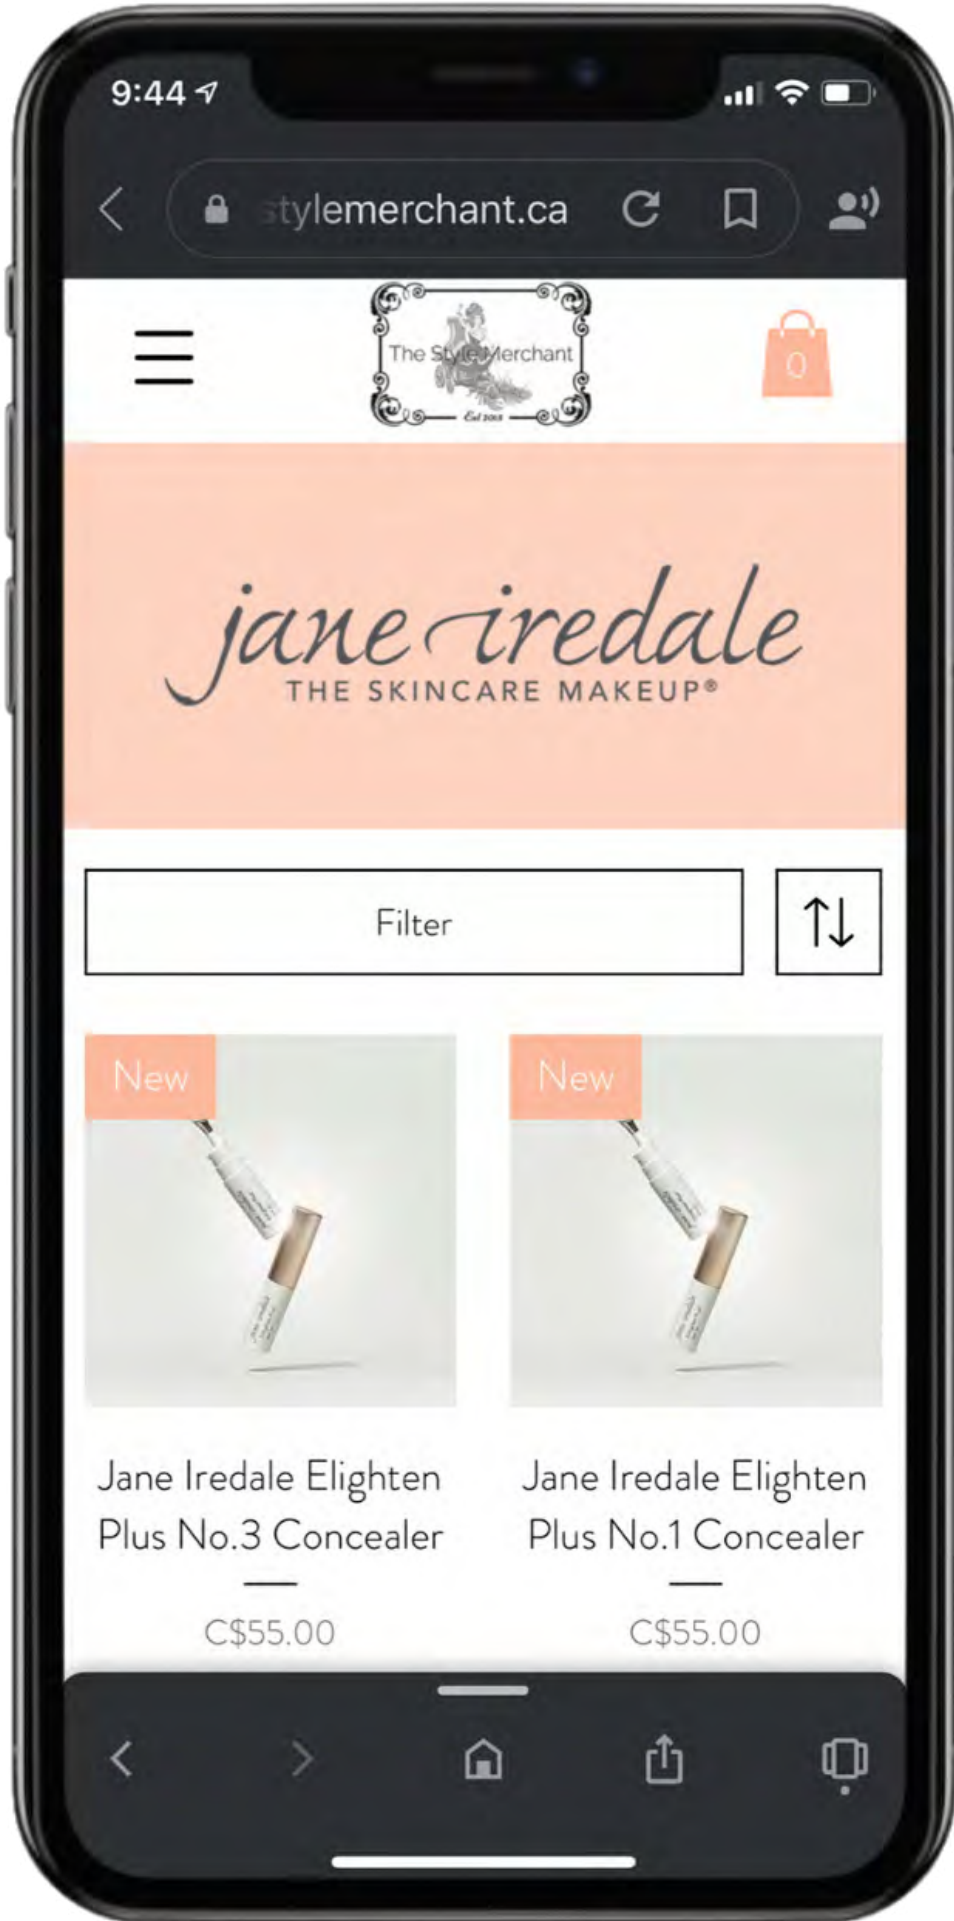

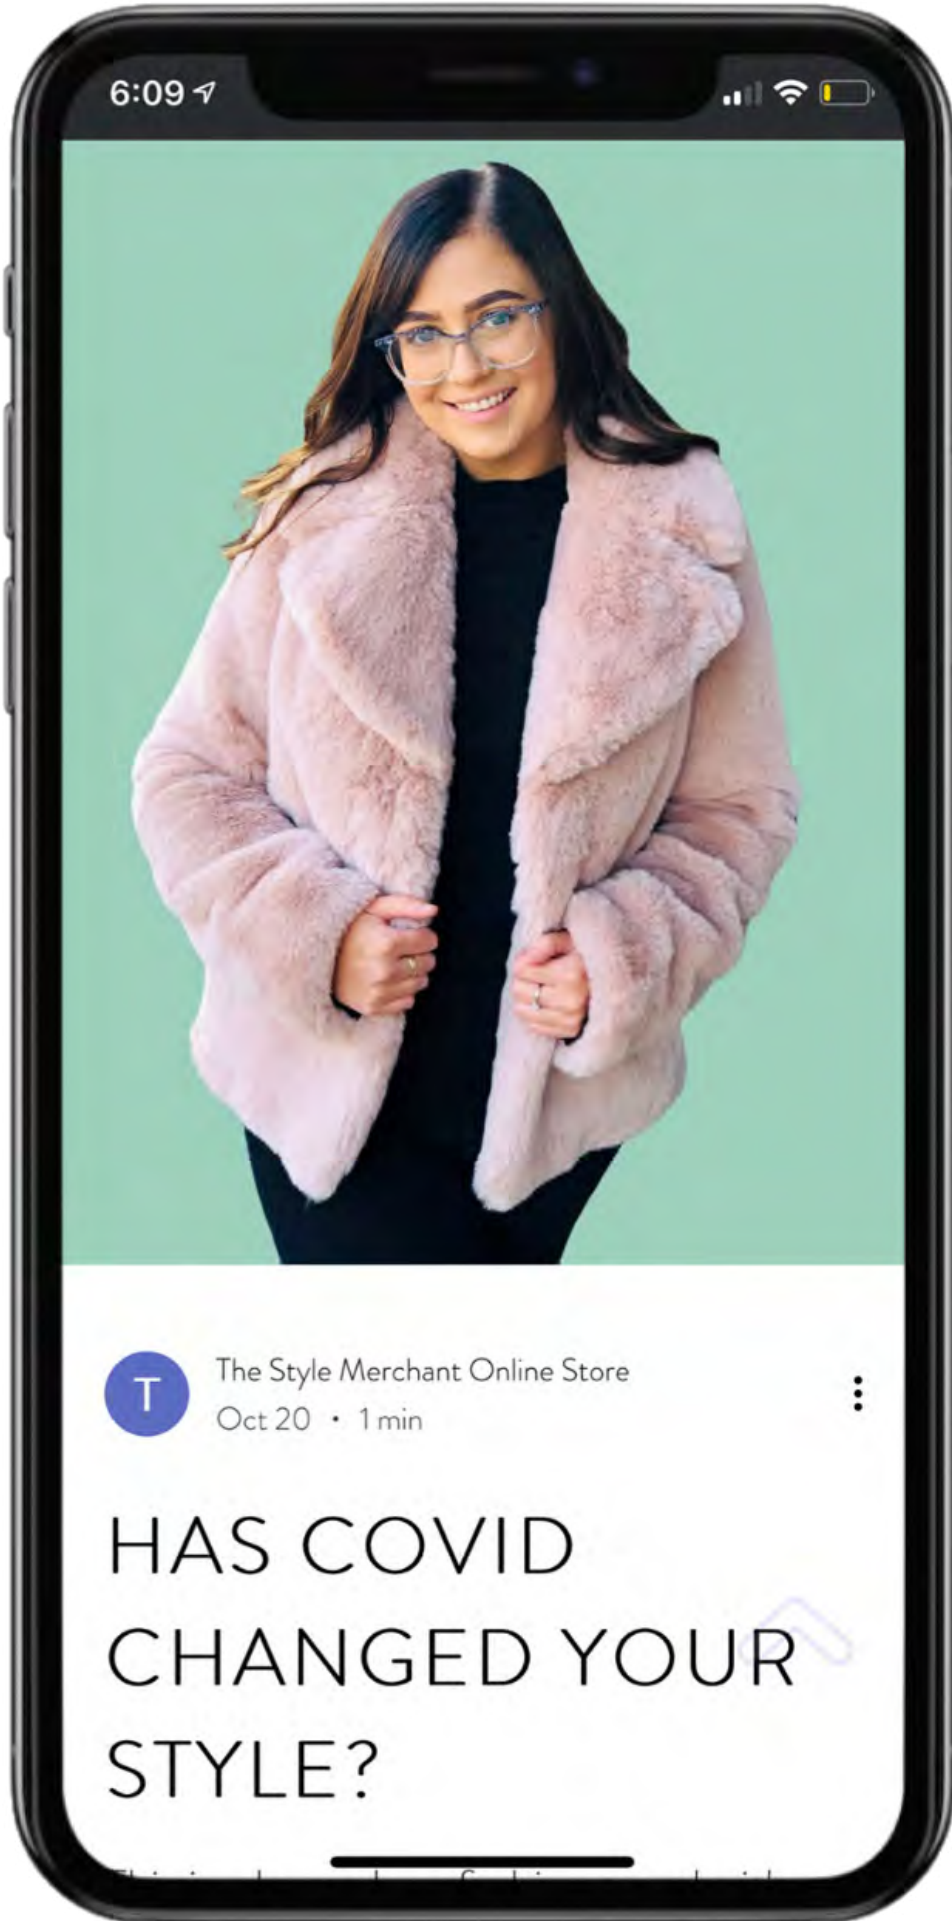

Since launch, they’ve sold products across Canada, added new products lines from their salon and successfully grown a large email subscriber base

Social Media Advertising  
Content Strategy

# Jake’s Restaurant

**CLIENT**

Jake’s Family Restaurant

**CHALLENGE**

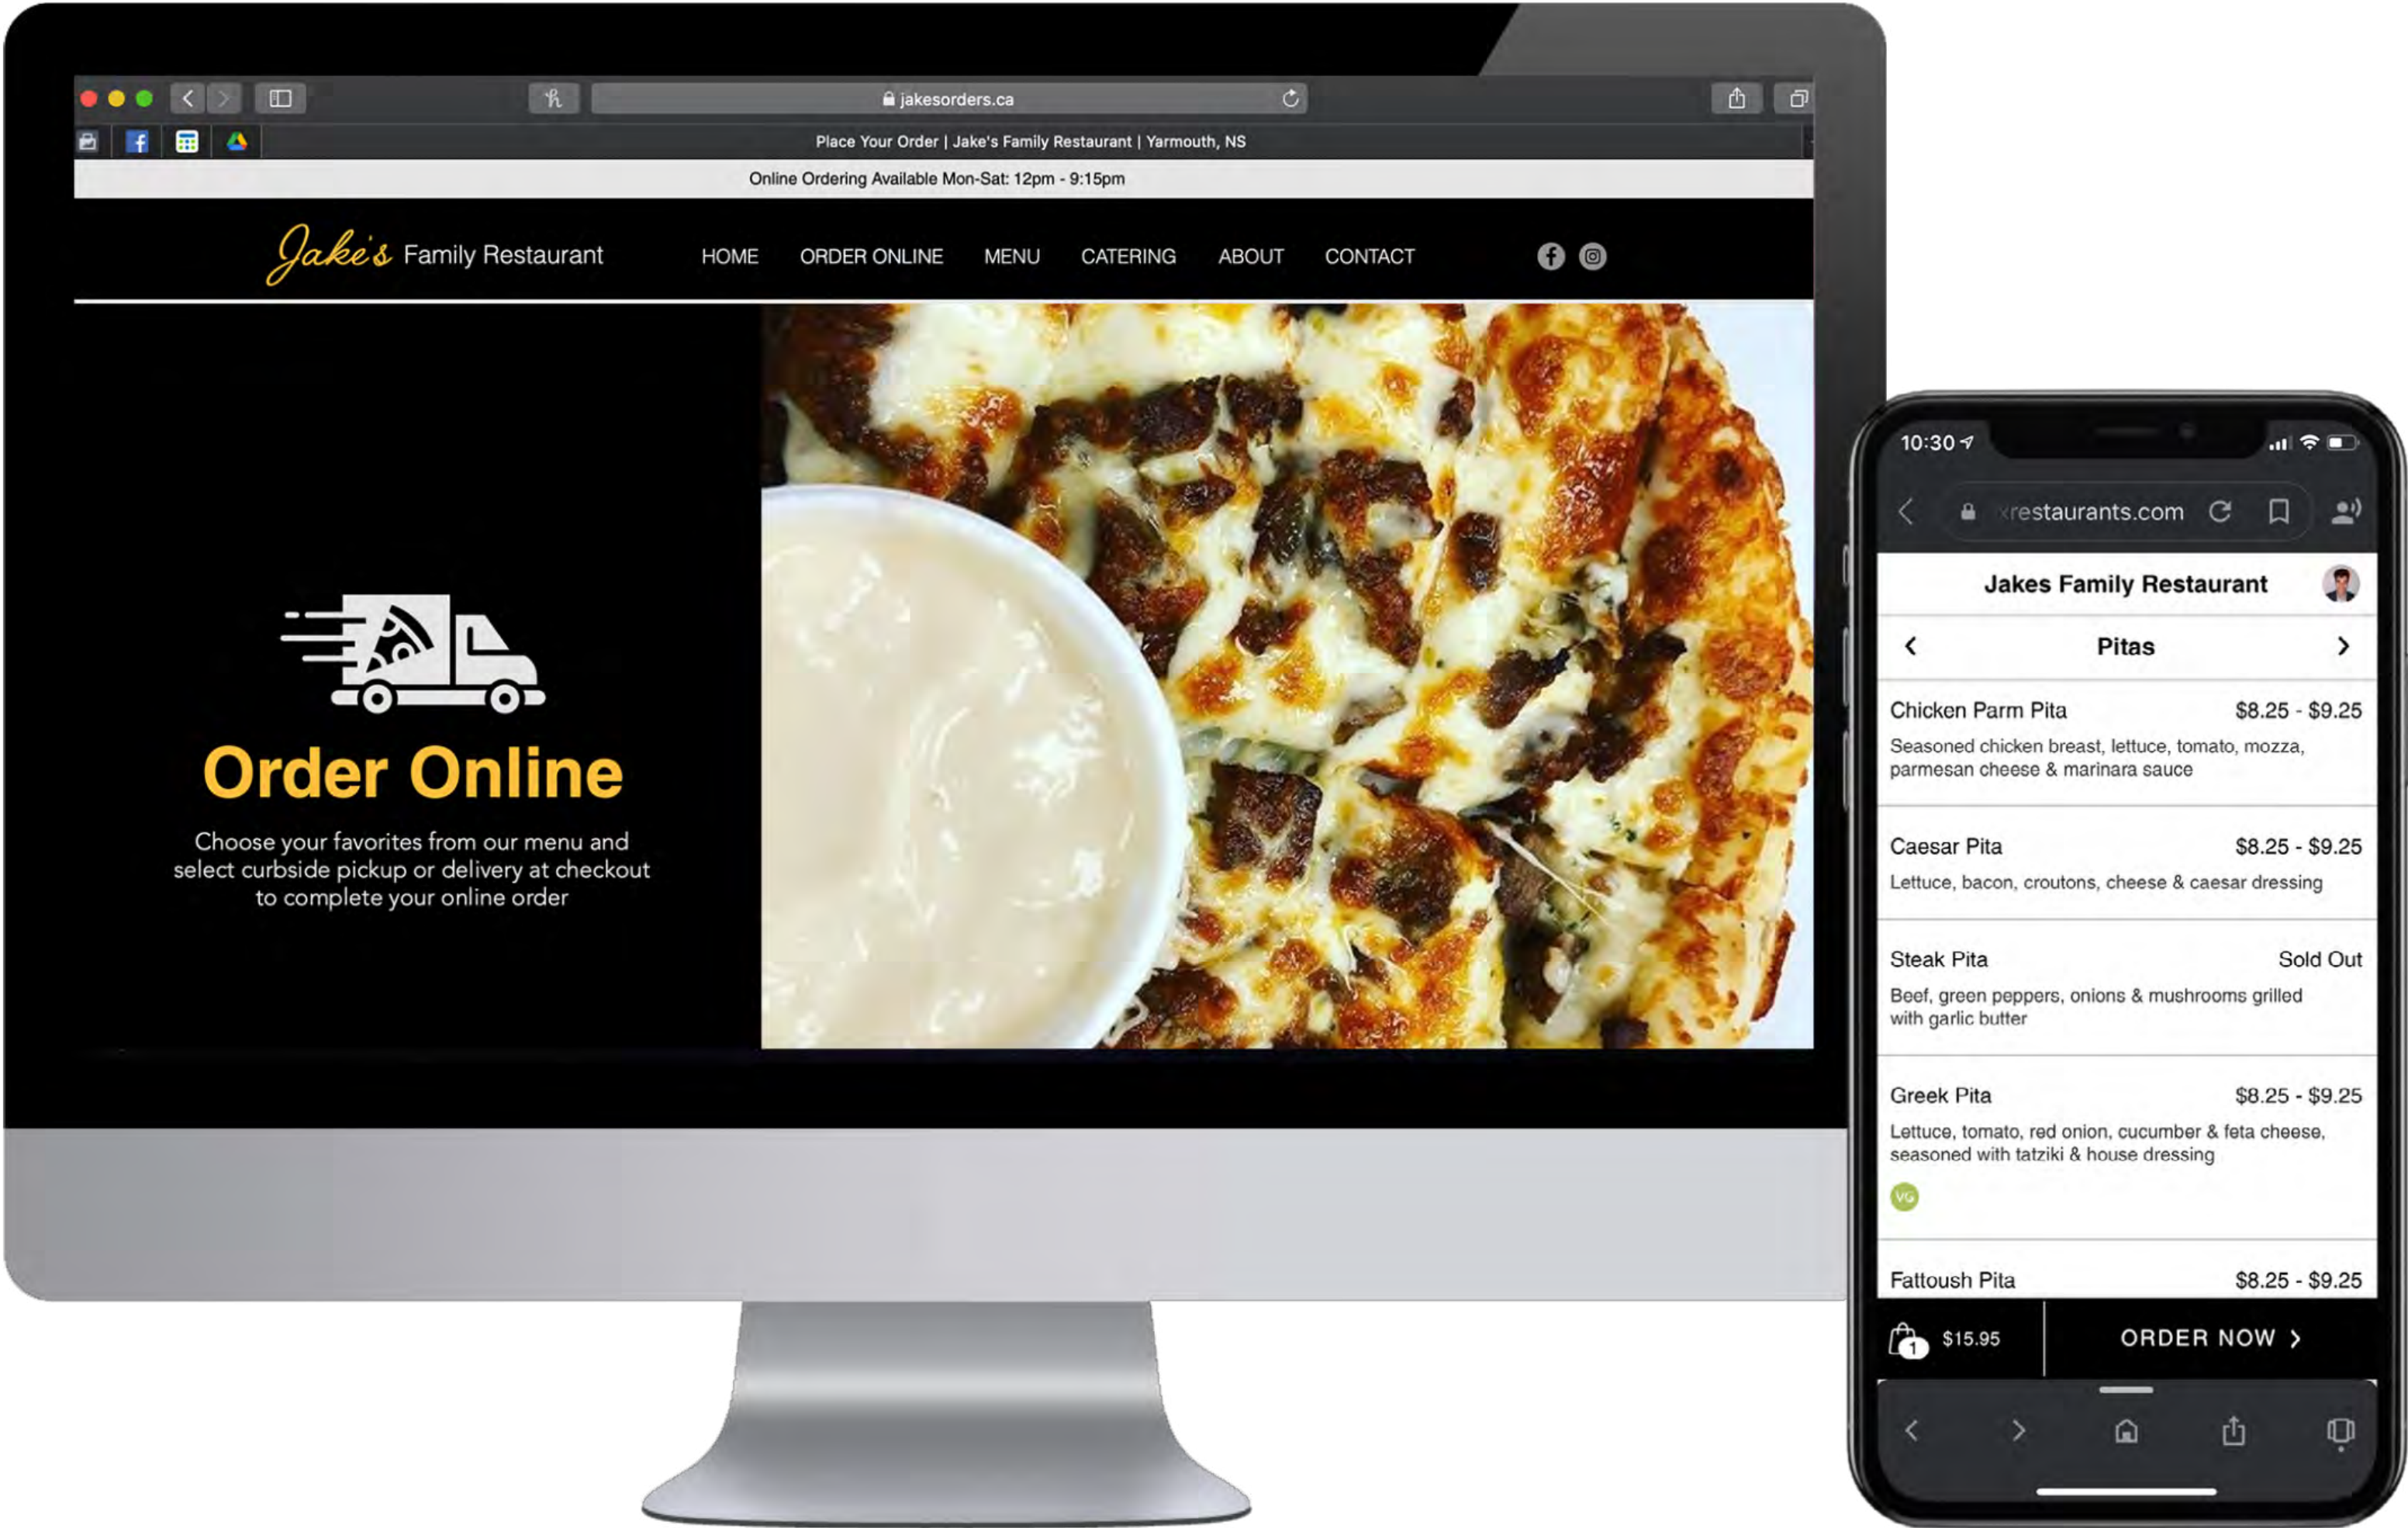

When COVID-19 lockdowns occurred in Nova Scotia, Jake’s wanted to adapt and provide contactless payments through online orders.

We created an online ordering system to allow customers the ability to purchase their favorite dishes online, available to pickup in store or local delivery.

The restaurant is now receiving hundreds of monthly orders, can print order slips on demand for cook staff, and reduce time spent processing phone orders.

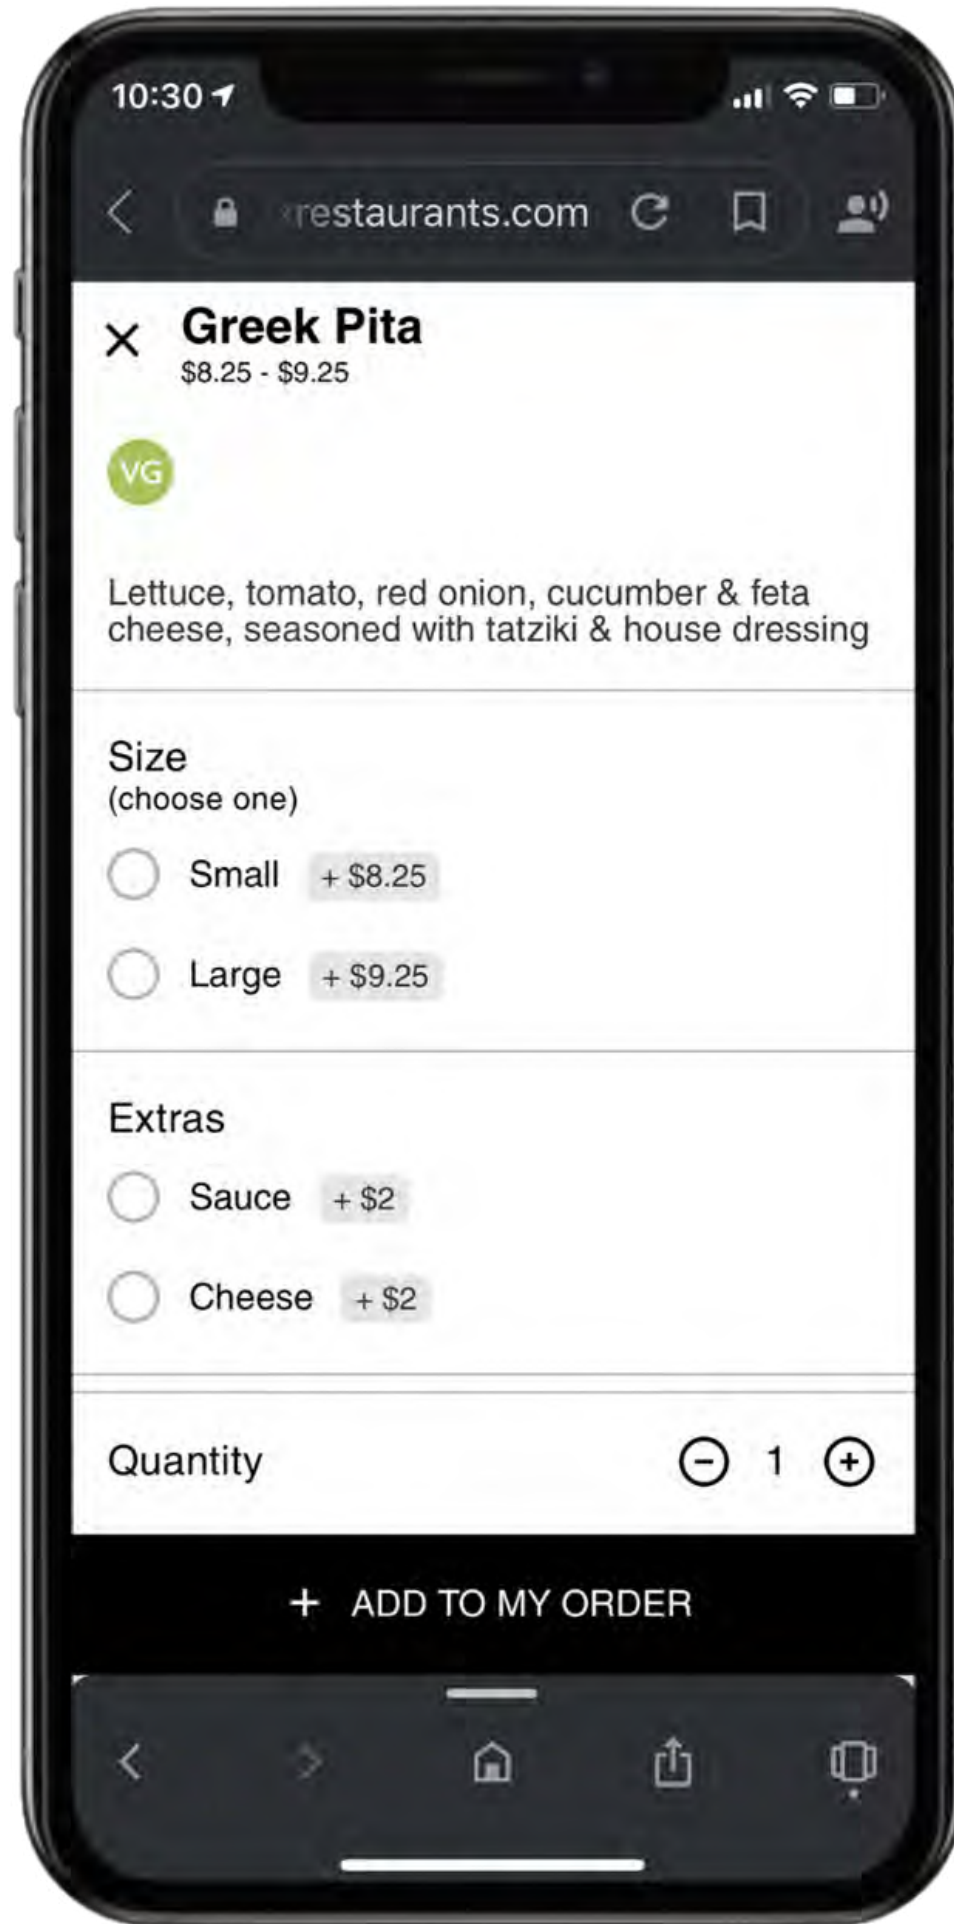

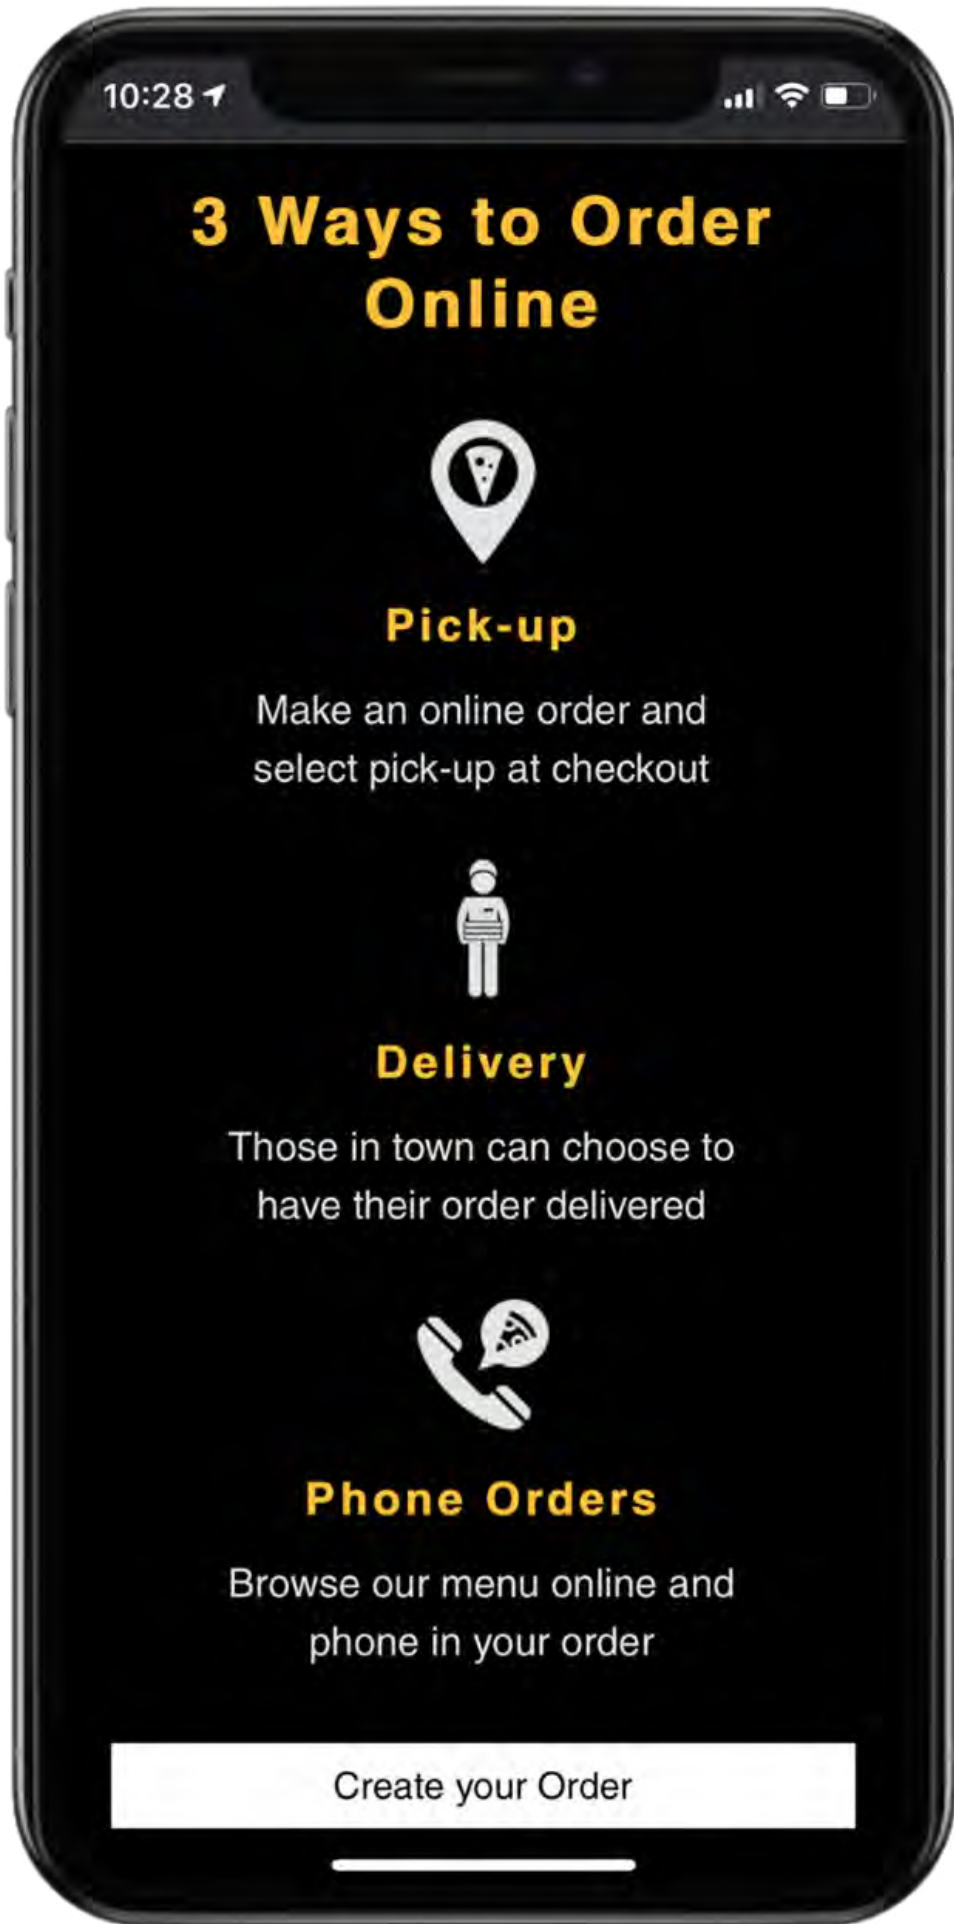

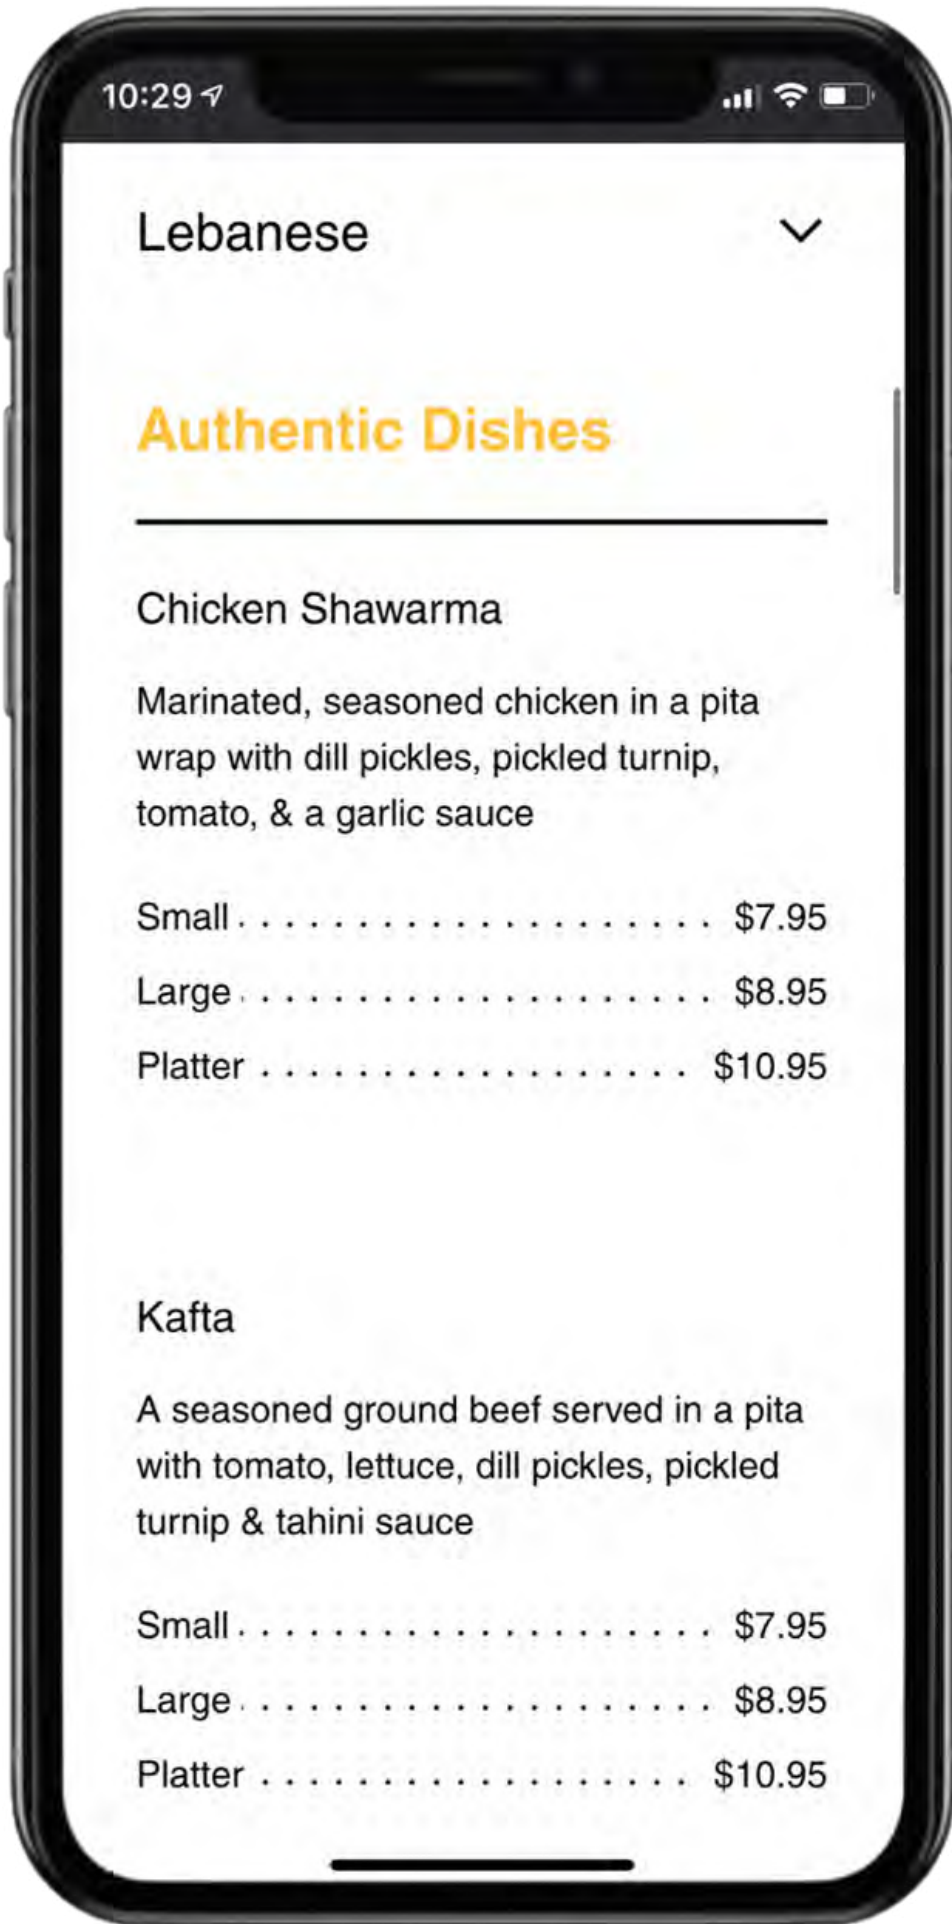

**DELIVERABLES**

# DuPrat Designs

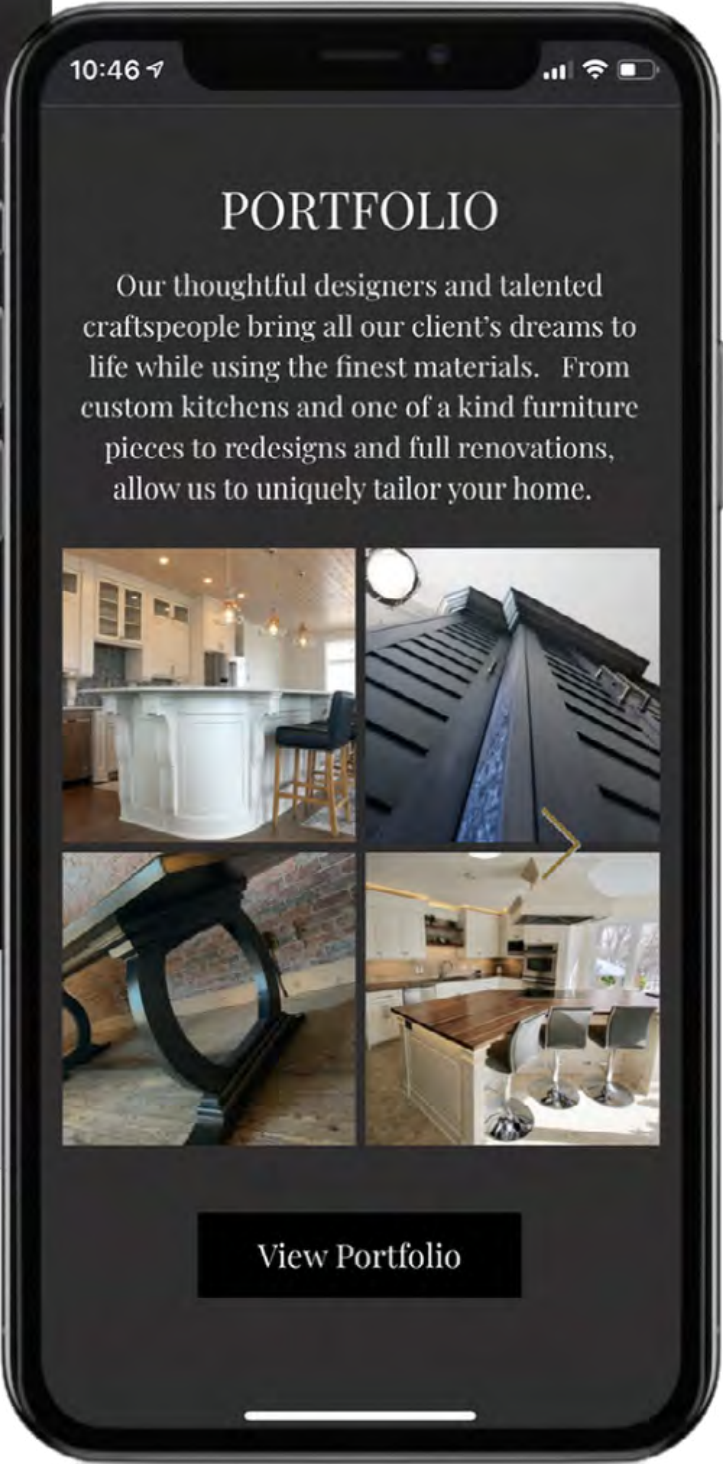

**CLIENT**  
DuPrat Designs

**CHALLENGE**  
The DuPrat Designs team needed a website with an elegant, easy to use portfolio to demo past projects to prospective clients.

We created a content management system for the team to add completed projects directly to the website, ready to be shared across social channels and rank on search engines.

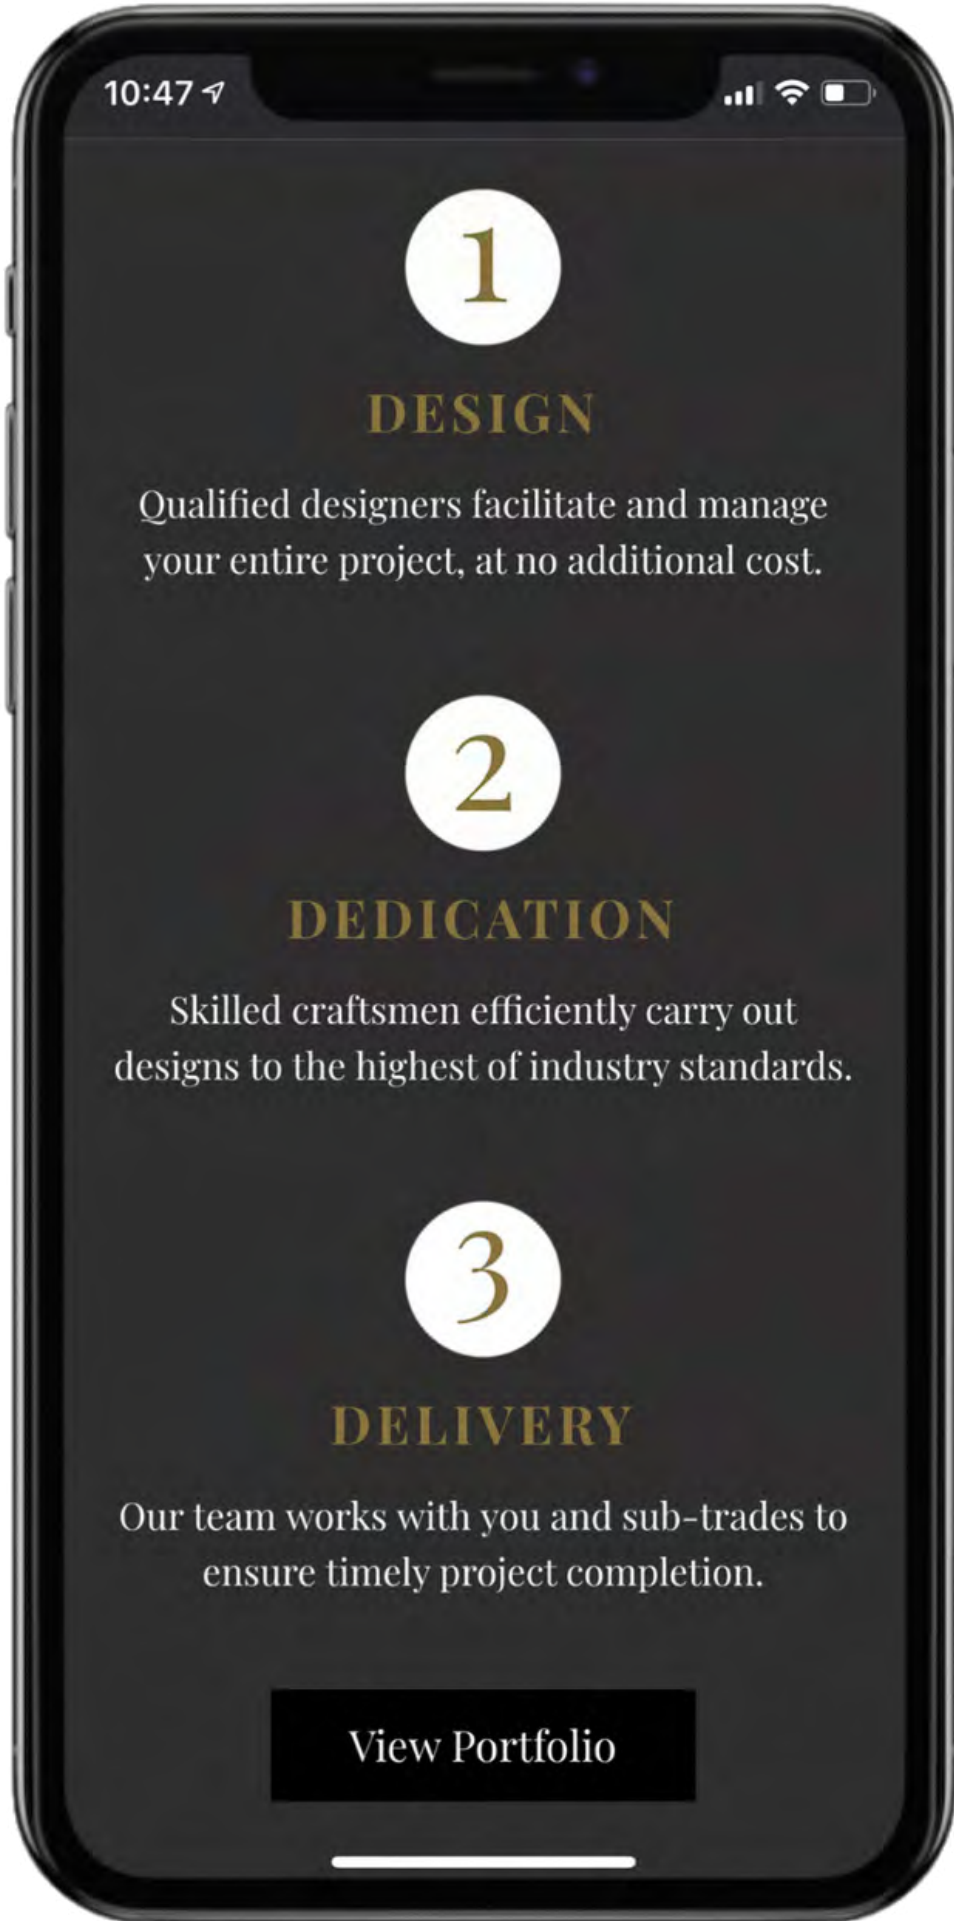

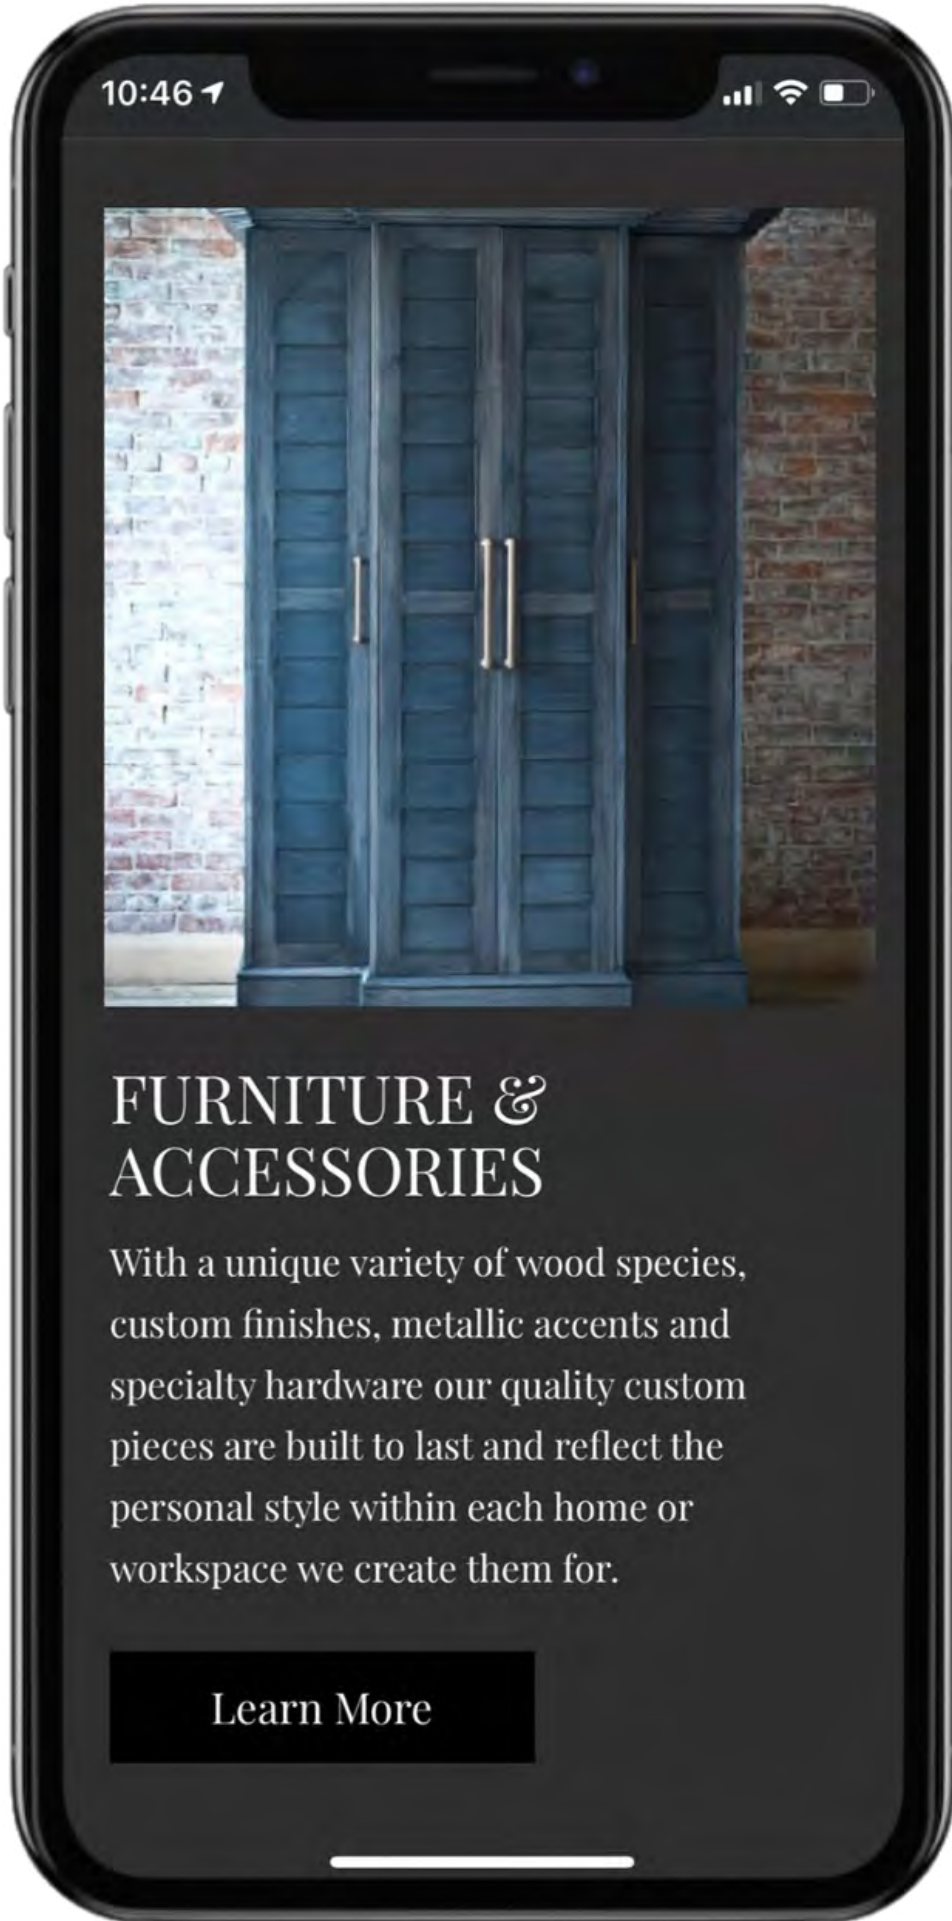

Since launch, they’ve gained thousands of views and now have a long-standing strategy in place to get future projects in front of new customers.
